RE: Application for Licence transfer under section 18 (2) of OEB Act

Dear Sir / Madam;

Licence # EB-2003-0198 has been held by Heinz Canada to generate power at the Leamington, Ontario power generation facility. The power generated at this plant has been used to run the manufacturing and warehouse processes at the Leamington site.

In 2014, Highbury Canco Corporation was formed when it acquired all of the assets at the Leamington site that were previously owned by Heinz Canada. These assets included the plant and equipment located at 147/148 Erie Street South in Leamington, Ontario. The facility is equipped with 31 production lines, a warehouse, and a powerhouse spread over 2.1MM square feet. This onsite powerhouse houses two turbines that support the generation of the daily steam/electricity needs for the production and warehouse processes.

Highbury Canco Corporation is a privately held corporation. Enclosed, please find the Ownership Structure (Appendix A), as well as the completed section 16's (appendixes B, C, D and E) for each of the key individuals of Highbury Canco Corporation, including Surjit Babra, Pradeep Sood, Joseph Jeyanayagam and Sam Diab.

As Highbury Canco Corporation is now the owner of the entire Leamington facility, we are requesting to have the licence ownership transferred to the Highbury Canco Corporation, with everything other than ownership remaining the same as it is currently.
