

September 9, 2016

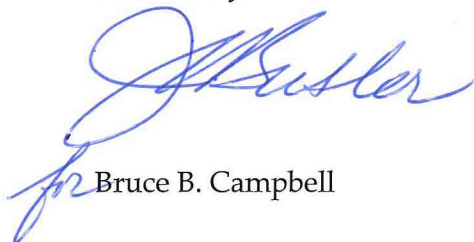

Ms. Rosemarie T. Leclair
Chair and Chief Executive Officer
Ontario Energy Board
2300 Yonge Street, 27th Floor
Toronto, ON M4P 1E4

Dear Ms. Leclair:

The Independent Electricity System Operator (“IESO”) is in receipt of the letter from the Ontario Energy Board (“OEB”) requesting a report from the IESO that details both its recommended scope for the Pickle Lake project as well as the IESO-supported scope for the Transmission Extension projects. In the letter, the IESO was asked to advise the OEB by September 9, 2016 as to when the IESO expects to be in the position to provide its report.

This letter is to advise the OEB that the IESO will be able to provide its full report on October 14, 2016.

Yours truly,

Bruce B. Campbell
