**RE: EB-2016-0186 Union Gas Panhandle Reinforcement Project
FRPO Intent to File Evidence**

We are writing on behalf of the Federation of Rental-housing Providers of Ontario (“FRPO”) in regard to the Panhandle Reinforcement Project. In respect of the Board’s Procedural Order, given the information provided to this point in the proceeding, we believe the Board would benefit from intervenor evidence and would intend to provide such evidence. However, without the benefit of a technical conference, there are some limitations in our ability to do that.

As described in our letter of September 21st, there are numerous responses that require clarification or further information to understand the alternatives considered and those that may not have been considered. Notwithstanding Union’s clarification¹ that Dawn receipts were provided in addition to Ojibway for the Panhandle system, we are still without evidence as to the actual flows received on the Union system at Ojibway. While the Union response in FRPO.6 does state the maximum receipts at Ojibway are limited to 210 TJ/day, information available on Union’s publicly available website provides the following²:

Union Gas Limited

**Gas Day Summary
Report**

Gas Day	Section	Location	Receipts	Deliveries	Net
February 19, 2014	Interconnect Locations	Ojibway	229,940	0	229,940
February 20, 2014	Interconnect Locations	Ojibway	231,207	0	231,207
February 21, 2014	Interconnect Locations	Ojibway	224,876	0	224,876

A clarification on this issue and many others are crucial in the understanding of Union's system and this type of information, in our submission, can only be sourced from the applicant.

We would therefore reiterate our request for a Technical Conference to facilitate understanding and the potential to provide the Board with helpful evidence or determine that with additional information provided by the Technical Conference, we need not provide further evidence.

Respectfully Submitted on Behalf of FRPO,
