**Union Gas Limited**

**November 3, 2016**

**EB-2016-0245**

---

**A-VECC-1**

Reference: A/T1/pg.11

- a) Please explain more fully how the introduction of the Dawn Reference Price (EB-2015-0181) impacts on a going forward basis the decision to not incorporate the PDCI credit in the gas supply transportation rate. Specifically does the gas supply transportation rate continue to exist and be applied after January 1, 2017?
- b) Why is a separate PDCI credit account not preferable to the SPVGA?

**A-VECC-2**

Reference: A/T1/Schedule 20

- a) Using Schedule 20, page 5 (sales service) and page 6 (direct purchase) please show the derivation of the 2015 and 2016 PDCI costs.

**A-VECC-3**

Reference: A/T1/Appendix A

- a) What were the reasons for the Madoc interruptions in which it appears that no customers or volumes were affected?

**A-VECC-4**

Reference: A/T4/pg.6

- a) Presumably existing T2 customers wish to avail themselves to the new CMS in order to save money. If so, how can this new service be offered and still meet the principles of inter class revenue neutrality while leaving Union financially harmless. Specifically, please explain if the Monthly Billing Adjustment is intended to achieve both inter and intra class revenue neutrality and how.
