

InnPower Corporation

Application for electricity distribution rates and other charges beginning July 1, 2017

PROCEDURAL ORDER NO. 5

October 5, 2017

InnPower Corporation (InnPower) filed an amended cost of service application with the Ontario Energy Board (OEB) on May 11, 2017 under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, (Schedule B), seeking approval for changes to the rates that InnPower charges for electricity distribution, to be effective July 1, 2017.

The OEB issued Procedural Order No. 1 on May 16, 2017, which provided for the filing of interrogatories and responses. Procedural Order No. 2 was issued on May 26, 2017 to provide further notice of this application for specific customer groups. Procedural Order No. 3 was issued on September 1, 2017 which required, among other things, OEB staff to file a proposed issues list that had been agreed to by all parties on September 15, 2017 or inform the OEB that parties were unable to reach an agreement. On September 14, 2017, OEB staff informed the OEB that the parties had reached an agreement on a proposed issues list.

On September 11, 2017, InnPower filed a letter with the OEB requesting confidentiality in response to a request by School Energy Coalition to provide the most recent financial statements for InnServices Utilities Inc. (InnServices).

On September 14, 2017, InnPower filed a letter with the OEB regarding filings resulting from the Technical Conference and expressed the concern that the timing of these filings may pose difficulties for commencing the oral hearing on October 3, 2017 as currently scheduled.

The OEB issued its Decision and Procedural Order No. 4 on September 21, 2017, approving the issues list. The OEB also advised that the oral hearing would proceed as scheduled.

On October 2, 2017 the OEB issued its Decision on Confidentiality and Intervention Request. The OEB approved Rogers Communications Canada Inc. as an intervenor and the confidentiality request submitted by InnPower.

The oral hearing was held on October 3, 2017 and October 4, 2017 regarding all issues raised in the application, except InnPower's pole attachment and microFIT charges. Further procedural steps were discussed in the oral hearing relating to the timing of submissions. The OEB also made a request for InnPower to generate a cross-reference document relating to its evidence.

The cross-reference document should be in a format similar to "Tab 14. TrackingSheet" of the Revenue Requirement Work Form filed by InnPower on September 20, 2017. This document should include specific evidence references that provide the background for each number in the final, proposed 2017 revenue requirement calculation. The articulated references should include the applicable evidence date, title and page number as necessary. At the oral hearing, InnPower was unable to estimate the time required to complete the cross-referenced document.

It is necessary to make provision for the following matters related to this proceeding. Further procedural orders will be issued by the OEB.
