The Independent Electricity System Operator (IESO), in its capacity as the Smart Metering Entity, has applied to the Ontario Energy Board to reduce the Smart Metering Charge by 25%, from the current \$0.79 per meter per month to \$0.59 per meter per month, effective January 1, 2018 to December 31, 2022. If the application is approved a typical residential customer in Ontario will see a decrease of \$0.20 per month in the Smart Metering Charge, which is included in the Regulatory Charges line of your electricity bill.

The Smart Metering Charge covers the costs of developing and operating the Meter Data Management/Repository, which is used to collect, manage, store and retrieve smart metering data.

### THE ONTARIO ENERGY BOARD IS HOLDING A PUBLIC HEARING

The Ontario Energy Board (OEB) will hold a public hearing to consider the application filed by the IESO in its capacity as the Smart Metering Entity or the SME. During the hearing, we will question the SME on its case for a decrease to the Smart Metering Charge. We will also hear questions and arguments from individual customers and from groups that represent affected customers. At the end of this hearing, the OEB will decide what, if any, decrease to the Smart Metering Charge will be allowed.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.
