

Michael:

Thank you for the reminder.

NOTL Hydro will be there.

NOTL Hydro wishes to file evidence and, by this e-mail, is providing this notification to the Ontario Energy Board as per Procedural Order No. 1. This evidence will be filed prior to the Settlement Conference. Please advise if there is a date you would need this evidence filed by.

The intended scope of the evidence will be our views on steps that could be taken to reduce the cost of the Smart Meter Charge for customers. These steps are largely outside the parameters of this case but could be undertaken voluntarily by the IESO. There will be no incremental costs for experts, counsel or consultants in relation to the evidence.

Thank you,

Timothy B. Curtis

President
