**RE: Essex Powerlines Corporation 2018 Cost of Service Application
Supplemental Information
Board File Number: EB-2017-0039**

Dear Ms. Walli,

Please find attached to this letter, supplemental information relating to Essex Powerlines Corporation’s (“EPLC”) 2018 Cost of Service Application (Board File Number EB-2017-0039). The supplemental information is summarized as follows:

- i) **GA Analysis Workform:** EPLC has included a revised 2018 Deferral/Variance Account Workform which includes a completed GA Analysis Workform. Consistent with the Board’s *GA Analysis Workform Webinar Q&A* (July 19th, 2017), the GA Analysis Workform can be submitted shortly after a Cost of Service Application.
- ii) **Rate Base Reduction:** Consistent with Exhibit 2, page 5, line 14-18, EPLC is proposing a reduction to Net Book Value in 2017 which reduces EPLC’s proposed Rate Base for the Test Year included in this Application. Unfortunately, this was not carried through certain exhibits. As a result, EPLC has also included revised copies of:
 - Cost Allocation Model;
 - PILs Model;
 - Revenue Requirement Workform;
 - Bill Impacts;

If you have any questions or concerns whatsoever, please do not hesitate to contact me anytime.

Yours truly,

[Original Signed By]

Joe Barile
General Manager
Essex Powerlines Corporation

Cc: Mr. Donald Lau, OEB
Mr. Kristopher Taylor, Essex Power Corporation
Ms. Lindsay Thiessen, EPLC
