

RECEIVED

DEC 22 2017

Reference # EB-2017-0224 ONTARIO ENERGY BOARD
Attention: Ms. Kristen Walli,

This letter is in regards to the Application for Approval to Recover the Cost Associated with 2018 Cap and Trade Compliance Plans.

Enbridge Gas Distribution Inc. will try to increase the cost of heating up our homes, hydro is already at all times high. I don't understand much of the political pressure and influence those big giant can have on people.

However the political power of the people must not be forgotten.

I look forward to the meeting, and hearing about opinions of the people of Toronto.

Sad W.
