Dear Ms. Walli:

EG-2003-0111
Campbellford Seymour Electric Generation Incorporated
License Amendment

Peterborough Utilities Inc. is the sole shareholder of Campbellford Seymour Electric Generation Incorporated.

We hereby request an amendment to the above noted electricity generator license, Schedule 1, to add “Campbellford Generating Station Plant #2, owned and operated by the Licensee at 810 County Road #38, Trent Hills, Ontario”.

Campbellford Generating Station Plant #2 is an existing 4 MW, two unit, hydroelectric generating station known as the Algonquin Power Generation Station, currently owned and operated by Algonquin Power (Campbellford) Limited Partnership under electricity generator license EG-2003-0196.

The reason for this amendment is that the Sublease agreement between Licensee and Algonquin Power (Campbellford) Limited Partnership expires at midnight on March 7th, 2018 and all assets and operations associated with this facility will be transferred to the Licensee at that time.

We request and consent to have this proceeding disposed of without a hearing in accordance with section 21(4)(b) of the [Ontario Energy Board Act, 1998](#) as this matter pertains to an existing electricity generator license. No other person will be adversely affected in a material way by the outcome of the proceeding.

Furthermore, we previously applied for an amendment on November 22, 2016 (copy attached) to update the regulatory contact information of the Licensee. This information does not appear to have been updated on the OEB’s website and we wish to alert you of this matter.

Please do not hesitate to contact the undersigned should you have any questions or concerns.

Yours very truly,
