As a result of this change, approved October 1, 2018 delivery commodity rates include an increase of 0.0040 cents/m³. Cap-and-trade charges previously included in the delivery line have been removed effective October 1, 2018. Individual customer impacts will vary based on usage.

Gas Supply Charges

New rates, **if applicable to your service**, reflect changes in Union Gas' forecast cost to purchase and transport natural gas for the next 12 months. In addition, there are changes due to the difference between the projected costs that Union Gas expects to pay and the amounts that Union Gas expects to recover through rates over the next 12 months. The changes by rate zones are detailed in the attached appendix.

Adjusting your gas rate in this way ensures that you are billed at a rate that more closely reflects the market price of natural gas and avoids large out-of-period adjustments. Union Gas does not earn income on the sale of the natural gas commodity and transportation. The price we pay for the gas commodity and transportation is passed on directly to customers with no profit included.
