Dear Ms. Walli,

**RE: EB-2018-0243 – Ontario Power Generation Reply Submission - 2019 Hydroelectric Payment Amount (HPA)**

In accordance with PO # 2 in EB-2018-0243, OPG notes that OEB staff and three intervenor parties (VECC, CME and Energy Probe, collectively, the “Parties”) provided written submissions pertaining to the amount OPG charges for the output of its hydroelectric generating facilities effective January 1, 2019.

OEB staff submit that OPG has correctly applied the approved methodology to determine its 2019 hydroelectric payment amount adjustment. The Parties either agreed, or had no concerns, with OPG’s calculation of its 2019 hydroelectric payment amount, which OPG submitted in an updated Ex. I1-1-1 to be \$42.51/MWh (p. 3, lines 10-11). OPG submits that the OEB should approve the 2019 Hydroelectric Payment Amount as requested by OPG.

Yours truly
