Dear Ms. Walli:

**Re: Application for 2020 Electricity Distribution Rates**

On November 27, 2017, the Ontario Energy Board (the "OEB") issued a letter identifying those electricity distributors that are scheduled to file a cost of service application for 2020 rates. In its letter, the OEB advised that those distributors that wish to request deferral of rebasing beyond the 2020 rate year must advise the OEB no later than March 1, 2019. In accordance with the OEB's letter, Oakville Hydro Electricity Distribution Inc. hereby requests approval to defer its 2020 cost of service application.

Oakville Hydro's request to defer its 2020 cost of service application is based on its financial and non-financial performance as reported in its 2017 performance scorecard. Since its last rebasing in 2014, Oakville Hydro has consistently achieved a regulatory rate of return on equity that is within 300 basis points of its deemed rate of return on equity of 9.36%. Oakville Hydro has also continued to provide a high level of reliability to its customers.

Should you have any questions or concerns, please do not hesitate to contact me.

Respectfully submitted,
