Good Morning,

I just recently received an email in regards to Union Gas applying to OEB to increase their rates from 2019-2023. I live in the North West region of Ontario and believe that residents in this area already pay enough for services from water to hydro to gas to groceries etc... My monthly bill with Union Gas is already quite high enough and I strongly believe they do not need to raise rates. Living in the far north has its own challenges then mixed with increasing rates of bills, services etc...makes it that much more difficult. Please deny Union Gas their application for increasing rates.

Sincerely,

A concerned northern resident
