I don't agree with rate increase. We do not have the privilege to get wage increases every year and by not getting an income increase forces us to have a budget at home so we can afford our bills. Gas is one of them. We use our gas when needed and try not use when possible to keep our bills low. I encourage Enbridge to keep the current rate we have now, and look deeper in your operations to keep the cost as low as possible for your customers.

Thank You.
