Dear Ms. Walli:

Custom Incentive Rate-setting (“Custom IR”) Application for 2020-2024 Electricity Distribution Rates and Charges – Correction to Response to PEG Follow-Up Questions

On March 13, Toronto Hydro filed responses to a number of clarification questions submitted by Pacific Economics Group (PEG) about the undertaking responses filed on March 4, 2019.

Toronto Hydro inadvertently attached the wrong file as Appendix A to question JTC4.32.7. The correct Appendix is enclosed.

Please contact me directly if you have any questions or concerns.

Respectfully,

Daliana Coban

**Note 1:** 2019-2024 forecast data is based on a high-level trend analysis.

**Note 2:** Due to a lack of granularity of data prior to 2011, the data is provided on a best efforts basis.

**Note 3:** The data includes both primary and secondary circuits.

**Note 4:** At different points in time, data cleanup exercises were performed and streetlighting conductor was incorporated as part of the data leading to notable changes in cct-km reported.
