Dear Ms Walli:

Re: EB-2019-0089 -Metalore Resources Limited Application to the Ontario Energy Board for the Right to Supply New Leaf Canada Inc.

ON-ENERGY CORP. ("ON") hereby requests intervenor status in the above noted proceeding. ON owns and operates over 180 natural gas wells in Elgin and Norfolk Counties in close proximity to the Metalore Resources Limited ("Metalore") wells and potential customer. In addition, ON holds a significant ownership position in OMLP, a licenced natural gas distributor serving a marijuana growing operation in Norfolk County. ON has an interest in all matters related to gas production in Ontario and in natural gas service to end use consumers. ON intends to actively participate in the proceedings and requests that it be provided with copies all evidence.

Please send all correspondence to:
