Brantford Power Inc. applied to the Ontario Energy Board to raise its electricity distribution rates effective January 1, 2020. If the application is approved as filed, a typical residential customer of Brantford Power Inc. would see an increase of approximately \$1.59 per month. Other customers, including businesses, may also be affected.

The requested rate increase is set using an OEB-approved formula which is tied to inflation and other factors intended to promote efficiency. The rate increase also includes Brantford Power Inc.'s request for incremental funding related to the relocation of its administration office and operations center.

THE ONTARIO ENERGY BOARD WILL HOLD A PUBLIC HEARING

The Ontario Energy Board (OEB) will hold a public hearing to consider Brantford Power's request. We will determine whether the company has used the applicable models and formulas required by the OEB and whether to approve Brantford Power's request for incremental funding related to the relocation of its administration office and operations center. We will also hear questions and arguments from individual customers and from groups that represent Brantford Power's customers. At the end of this hearing, the OEB will decide what, if any, rate increase will be allowed.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.
