Dear Ms. Long,

RE: EB-2018-0270 Hydro One Orillia MAADs Proceeding Energy Probe Notice of Oral Hearing Participation

I apologize for the late response, I am having difficulty with my phone and email. I am hopeful that you will still consider my notice of intent to participate in the oral hearing. I expect to ask questions regarding the alleged benefits to the Hydro One consumers of rural Ontario with special consideration given to the historical track record of increased costs since 1998.

Respectfully,

Maurice McMillan
