Dear Mr. Van Dusen:

Re: EB-2019-0046 Application for 2020 Rates

The OEB provided a draft Decision and Rate Order and draft Tariff of Rates and Charges in relation to the above-noted proceeding on December 9, 2019. On December 10, 2019, in its comments on the drafts, Hydro Ottawa Limited noted the following:

- The adjustment for the Global Adjustment variance account for transitioning customers should be a one-time adjustment rather than 12 monthly adjustments.
- Request to split up the deferral and variance account rate riders between Non-Wholesale Market Participants and Wholesale Market Participants.
- Update the “Per Board Decision” column of the Revenue Requirement Workform.
- To clarify the monthly bill increase of \$1.36 for a residential customer.

The OEB has updated the final Decision and Rate Order and final Tariff of Rates and Charges with the following:

- The wording for the adjustment for the Global adjustment in the Decision and Rate Order has been changed to a one-time adjustment.
- The request to split up the deferral and variance account rate rider between Non-Wholesale Market Participants and Wholesale Market Participants was not identified until the review of the draft decision and so the OEB will not make this change at this time. The OEB will consider any similar proposals in the future, as applicable.

- The Revenue Requirement Workform “Per Board Decision” column has been updated.
- The monthly bill increase of \$1.36 for a residential customer has been clarified that it is before taxes.

The OEB has now issued a final Decision and Rate Order, together with a final Tariff of Rates and Charges. Copies of these documents are enclosed with this letter.

Yours truly,
