**NOTICE OF APPLICATION AND WRITTEN HEARING FOR AN
ELECTRICITY DISTRIBUTION RATE CHANGE**

Niagara Peninsula Energy Inc. – Peninsula West

The Ontario Energy Board has received an application on November 5, 2008 under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15 (Schedule B), seeking approval for changes to the rates that Niagara Peninsula Energy Inc. – Peninsula West (“Niagara Peninsula Energy – Peninsula West”) charges for electricity distribution, to be effective May 1, 2009. The Board has assigned the application file number EB-2008-0200. The Board’s decision on this application may have an effect on all of Niagara Peninsula Energy – Peninsula West’s customers. The application was filed under the Board’s guidelines for 2nd Generation Incentive Regulation, which provides for a mechanistic and formulaic adjustment to rates between cost of service applications.

Any change to the rates that Niagara Peninsula Energy – Peninsula West charges for electricity distribution will be reflected in the delivery charges. Delivery charges are one of four regular items on residential and general service customers’ electricity bills and vary depending on the amount of electricity consumed.

Niagara Peninsula Energy – Peninsula West indicates that if the application is approved as filed, a residential customer consuming 1,000 kWh per month would experience an approximate change in the electricity bill ranging from an increase of 1.7% to an increase of 1.8%, depending on their residential rate classification. This is an approximate \$0.68 increase per month on their bill. A small general service customer consuming 2,000 kWh per month and having a monthly demand of 50 kW or lower would experience an approximate 0.9% increase in their delivery charges. This is a \$0.58 increase per month on their bill.
