**NOTICE OF APPLICATION AND WRITTEN HEARING  
FOR AN  
ELECTRICITY DISTRIBUTION RATE CHANGE**

**Lakefront Utilities Inc.**

The Ontario Energy Board has received an application on November 7, 2008 under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15 (Schedule B), seeking approval for changes to the rates that Lakefront Utilities Inc. ("Lakefront") charges for electricity distribution, to be effective May 1, 2009. The Board has assigned the application file number EB-2008-0193. The Board's decision on this application may have an effect on all of Lakefront's customers. The application was filed under the Board's guidelines for 3<sup>rd</sup> Generation Incentive Regulation, which provides for a mechanistic and formulaic adjustment to rates between cost of service applications.

Any change to the rates that Lakefront charges for electricity distribution will be reflected in the delivery charges. Delivery charges are one of four regular items on residential and general service customers' electricity bills and vary depending on the amount of electricity consumed.

Lakefront indicates that if the application is approved as filed, a residential customer consuming 1,000 kWh per month would experience an approximate 0.8% decrease in their delivery charges. This is a \$0.29 decrease per month on their bill. A small general service customer consuming 2,000 kWh per month and having a monthly demand of 50 kW or lower would experience an approximate 0.9% decrease in their delivery charges. This is a \$0.55 decrease per month on their bill.

On August 7, 2008, Lakefront applied for a review of the Board's Decision in EB-2007-0761 regarding its 2008 rates. That review is a separate application and does not form part of the EB-2008-0193 proceeding.
