Dear Ms. Walli:

EB-2008-0244 – PowerStream 2009 Rate Application – Hydro One Networks Late Intervention Request

In response to the Ontario Energy Board's Notice of Application and Hearing for an Electricity Distribution Rate Change dated October 24, 2008, Hydro One Networks Inc. ("Hydro One") is applying for late intervenor status in the above-noted proceeding. Hydro One intends to participate in the proceeding as necessary to determine issues, clarify or test evidence through interrogatories, and, if required, provide submissions and/or argument on issues pertinent to its interests.

Hydro One is a subsidiary of Hydro One Inc. and operates extensive electricity transmission and distribution facilities throughout Ontario. Hydro One is a major stakeholder in the Ontario energy sector and a regulated Ontario electricity distributor and transmitter. As a direct result of Decision with Reasons in the oral hearing on the PowerStream – Barrie Hydro EB-2008-0335 proceeding which may impact this proceeding Hydro One now wishes to be granted intervenor status.

Hydro One is not eligible for and does not intend to seek an award of costs as per the Board's Cost Award Guidelines.

As a late intervenor, Hydro One Networks understands that it must accept the record as it stands.

Hydro One requests that documents filed with the Board in this proceeding be served as follows –
