TO: ALL PARTIES IN EB-2007-0050

**Re: Hydro One Networks Inc.
Application for Leave to Construct Bruce-Milton Transmission
Reinforcement Project
Board File No. EB-2007-0050**

At the hearing on May 8, 2006, the Board considered an objection by Hydro One Networks Inc. to the filing by the Ross Firm Group of a document entitled Land Acquisition Compensation Principles. This document describes the principles Hydro One intends to use in setting land owner compensation.

The Board Panel ruled that the document would be allowed into evidence, but that it was relevant on only a very narrow set of grounds.

Any party that intends to ask questions to witness panel 3 (which will be dealing with land matters) on the document or Hydro One's compensation principles in general should familiarize themselves with this decision, which is attached. Please note that this was an oral decision, and the attachment comes from pages 72-74 of the transcript for May 8, 2008.

Yours truly,

Original signed by

John Pickernell
Assistant Board Secretary
