

Dear Ontario Energy Board  
attention: Gordon Waddy Re Hydro Rates

E. Smith  
12 Caroline St  
St Catharines ON L2T 3G1

JAN 12, 09

In the present worsening recession  
there is no time to raise hydro rates.

The auto layoffs, supplier layoffs & associated  
layoffs we can't pay more for electricity.  
I know-Horizon Elec Co has done a  
remarkable good job & has made good  
profits & deserve a small increase  
but not for at least one year (until  
we see the recession ending)

and will Obama harm our  
domestic auto industry as well?  
Tell our Government Gov & Fed to force  
Japan to buy one of our cars, for  
each Japanese car sold here!  
That could end our recession more  
quickly.

Don't harm all our layed off families  
by raising hydro rates until its  
clear the recession is ending.

We have 60 plus names on a petition  
for you & Dalton McQuinty & will mail them  
when each of them has at least 30 signatures.  
Please tho of all of us & well all be voting  
in the next election about this.

RECEIVED

Sincerely

E. Smith
