RE: File EB 2008-0339 – Letter from Andrew Roman – Miller Thomson

Dear Ms. Walli,

Please disregard Miller Thomson's, Mr. Andrew Romans, letter addressed January 27, 2009.

In his topic he states "Response to submission by James A. Brown". Clearly he is not responding to my letter but that of Mr. Carroll's. He obviously confused, therefore his comments should be removed.

Furthermore, Mr. Roman referenced my name a number of times but did not have the decency to forward me his submittal. If it was intentional, he is of ethical question, however we noted that when he represented two separate clients in this matter. However, more importantly was wording and tone, it was completely condescending. Please have him keep those tactics in his boardroom and not in a public forum.

Legally the Corporation of the Town of Iroquois Falls broke the law by not following the municipal act, attached is a letter from the OPP stating it is their service duty to follow up. These complaints were issued back in October. We expect the OPP to do a full investigation. Possibly Mr. Roman should have investigated all aspects of this matter.

In addition I will also be forwarding supplemental and relevant background information to your attention.

Yours truly,

James A. Brown
