Re: Clarification of Enbridge Gas Distribution's Reply Argument

Dear Ms. Walli:

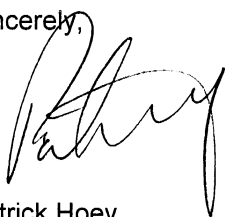

During reply argument on EnergyLink, Enbridge Gas Distribution ("EGD") indicated that it would provide additional clarification to the Board in regards to EGD's commitment to investigate working with the TSSA in connection with independently qualifying these EnergyLink contractors (Tr 16, Pg. 184).

Therefore, EGD proposes to:

- (a) seek guidance from the TSSA on whether additional technical qualifications should be required from contractors to be qualified by the EnergyLink program;
- (b) investigate whether a process can be put in place in conjunction with the TSSA to guide and assist EGD in the qualifying of contractors when they apply to the EnergyLink program; and,
- (c) to investigate whether the TSSA would be willing to act in an independent technical advisory capacity to the EnergyLink program.

We trust this provides additional clarification on how we propose to work with the TSSA.

Sincerely,

Patrick Hoey
