EB-2008-0162

**NOTICE OF APPLICATION AND WRITTEN HEARING
FOR AN
ELECTRICITY DISTRIBUTION RATE CHANGE**

Brantford Power Inc.

The Ontario Energy Board has received an application on November 7, 2008 under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15 (Schedule B), seeking approval for changes to the rates that Brantford Power Inc. ("Brantford") charges for electricity distribution, to be effective May 1, 2009. The Board has assigned the application file number EB-2008-0162. The Board's decision on this application may have an effect on all of Brantford's customers. The application was filed under the Board's guidelines for 3rd Generation Incentive Regulation, which provides for a mechanistic and formulaic adjustment to rates between cost of service applications.

Any change to the rates that Brantford charges for electricity distribution will be reflected in the delivery charges. Delivery charges are one of four regular items on residential and general service customers' electricity bills and vary depending on the amount of electricity consumed.

Brantford indicates that if the application is approved as filed, a residential customer consuming 1,000 kWh per month would experience an approximate 6.9% increase in their delivery charges. This is a \$2.44 increase per month on their bill. A small general service customer consuming 2,000 kWh per month and having a monthly demand of 50 kW or lower would experience an approximate 7.3 % increase in their delivery charges. This is a \$4.04 increase per month on their bill.

How to see Brantford's Application

Copies of the application are available for inspection at the Board's office in Toronto and on its website, www.oeb.gov.on.ca, and at Brantford's office and may be on its website.

How to Participate in the Rate Proceeding

The Board intends to proceed with Brantford's rate change application by way of written hearing unless a party satisfies the Board that there is good reason for holding an oral hearing. If you object to a written hearing in this matter, you must provide written reasons why an oral hearing is necessary. Any objections to a written hearing must be received by the Board and copied to the applicant at the addresses below no later than **December 12, 2008**. The Board will not be awarding costs in this matter.

Anyone who wishes information and material from the applicant that is in addition to the evidence filed with the Board and that is relevant to the hearing, shall request it by written interrogatories filed with the Board and delivered to the applicant on or before **January 5, 2009**. The applicant shall file with the Board complete responses to the interrogatories and deliver them to all parties who asked interrogatories no later than **January 19, 2009**.

Anyone who wishes to make a submission on the application must file that written submission with the Board and deliver it to the applicant **February 2, 2009**. If the applicant wishes to respond to the submission(s), the written response must be filed with the Board and delivered to all parties who made submissions by **February 17, 2009**.

ry economic update

"These are not easy times," Flaherty told the House of Commons.

"But we must not forget that our country has been through plenty of hard times before and we'll get through these ones the same way."

According to the economic projections tabled Thursday, it will be highly unlikely that the government will avoid a budgetary deficit next year despite its restraint measures.

That's something Stephen Harper and Flaherty vowed

would never happen under their watch.

The government is projecting a 0.3 per cent growth rate next year and 0.6 per cent in 2010 - a rosy outlook considering many economists are now forecasting a deepening recession.

That would still result in a paper-thin \$100-million surplus in each of the next two years after the new measures, or a \$5.9-billion deficit next year followed by a \$3.4 billion shortfall the following year if Ottawa had done nothing.

But Flaherty conceded that the times are so uncertain "no one could unconditionally guarantee the fiscal projections contained in today's statement."

Flaherty also signalled strongly that he will introduce a multibillion-dollar fiscal stimulus package that includes major infrastructure spending and possible help for the auto sector in the next federal budget expected in late January.

Subject to any overriding statutory provisions, the final statement of the claim must be filed within nine (9) months from the date of shipment, together with a copy of the paid freight bill. If the Convention applies, other notice periods may govern. No claim will be entertained until all transportation charges due in connection with this bill of lading have been paid in full. The consignor warrants that the shipment is properly described on this bill of lading and on any accompanying documentation, and that the shipment is properly marked, addressed and packed to ensure safe transportation in accordance with the carrier's ordinary care in handling. Unless otherwise indicated on this bill of lading, the consignor waives its right to determine the volume or dimensions of the shipment, and to indicate same on this bill of lading. The consignor appoints the carrier as its agent for the performance of customs clearance and selecting a customs broker.

Stocks plunge as fears raised economy

mayed after a manufacturing survey came in worse than expected and U.S. Federal Reserve chairman Ben Bernanke said the risks of a U.S. economic downturn are more pronounced.

Toronto's S&P/TSX retreated 279.22 points or 2.14 per cent to 12,795.64 as writedowns of securities connected to the U.S. housing sector and lower oil prices have pushed the TSX down a staggering 837 points or just over six per cent this week alone.

The TSX main index is now about 113 points below where it started 2007 and a long ways away from the 14,625.76 level it hit Oct. 30.

On Wall Street, the Dow Jones industrial average plunged 306.95 points or 2.5 per cent to 12,159.21.

Losses started piling up after the Philadelphia Federal Reserve survey showed regional manufacturing activity weakened in January, falling sharply to a negative 20.9 from a revised reading

of negative 1.6 in December, its lowest number since Oct. 2001.

O'Donoghue observed that if you look back at Philadelphia Fed data for similar numbers, it takes you back to the 2001 to 2002 U.S. recession.

The White House announced during the morning that President George W. Bush has decided that an economic stimulus package is needed.

Bernanke echoed the sentiment, telling Congress in an economic update that such a plan should be implemented quickly and be temporary so it won't complicate longer-term fiscal challenges.

Bush has scheduled a speech for Friday to spell out details of the program.

"In the U.S., I think most people are just hanging their hat on continuing Fed easing and... most people now are expecting a 50 (basis-point) cut in the Fed funds rate," said Fred Pym, president and chief investment officer, Bissett Investment Management — although he added that lower rates won't be a surefire cure-all.

"Given how much the banking sector in the U.S. has been roughed up, the ability to lend even if you have people who are willing to borrow at lower rates, some of the banks are obviously capital constrained, they're licking their wounds, they have to

EB-2007-0698

NOTICE OF APPLICATION AND HEARING FOR AN ELECTRICITY DISTRIBUTION RATE CHANGE Brantford Power Inc.

Brantford Power Inc. has filed an application with the Ontario Energy Board, received on December 21, 2007, under section 78 of the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15 (Schedule B), seeking approval for changes to the rates that Brantford Power Inc. charges for electricity distribution, to be effective May 1, 2008. The Board has assigned the application file number EB-2007-0698. The Board's decision on this application may have an effect on all of Brantford Power Inc.'s customers.

Any change to Brantford Power Inc.'s distribution rates will cause Brantford Power Inc.'s delivery charges to change. Delivery charges are one of four regular items on residential and general service customers' electric bills and vary depending on the amount of electricity consumed.

Brantford Power Inc. is seeking approval of \$18,649,742 as the annual revenue it requires to provide electricity distribution. Brantford Power Inc. indicates that if the application is approved as filed, a residential customer consuming 1,000 kWh per month would experience an approximate 4.1% decrease in the electricity bill. A small general service customer consuming 2,000 kWh per month and having a monthly demand of 50 kW or lower would see an approximate 5.1% decrease in the electricity bill.

How to see Brantford Power Inc.'s Application

Copies of the application are available for inspection at the Board's office in Toronto and on its website, www.oeb.gov.on.ca, and at Brantford Power Inc.'s office and may be on its website.
