Delivered by E-mail and Courier

Ms. Kirsten Walli Board Secretary Ontario Energy Board 2300 Yonge Street, Suite 2700 Toronto, Ontario M4P 1E4

Dear Ms. Walli:

Re: OEB File Nos. EB-2008-0241, EB-2008-0242 and EB-2008-0243

Peterborough Distribution Inc. 2009 Electricity Distribution Rate

Application

We are counsel to Peterborough Distribution Inc. ("PDI") in the above-captioned matter. Please find accompanying this letter two hard copies of PDI's supplementary responses to the interrogatories of Board Staff and VECC in this proceeding, together with a disk containing the responses.

At this time, a Technical Conference is scheduled in this proceeding for March 31, 2009. PDI has worked diligently to prepare its responses for filing and delivery in advance of the Board's March 27, 2009 deadline. PDI respectfully requests that the Board consider whether the Technical Conference will still be necessary. With a round of interrogatories and a further round of clarification questions and responses now complete, PDI suggests that it would be appropriate to move directly to written submissions at this time, which would avoid the expenditure of time, money and resources over the coming days in preparation for and attendance at a Technical Conference that may not be necessary.

Should you have any questions or require further information, please do not hesitate to contact me.

Yours very truly,

BORDEN LADNER GERVAIS LLP

IN THE MATTER OF the Ontario Energy Board Act, 1998, S.O. 1998, c. 15, (Schedule B);

AND IN THE MATTER OF an application by Peterborough Distribution Inc. for an order approving just and reasonable rates and other charges for electricity distribution to be effective May 1, 2009.

Peterborough Distribution Inc. ("PDI") Responses to Board Staff Supplementary Interrogatories

Filed: March 25, 2009

PLEASE NOTE: The numbering of these questions and responses carries on from

the original set of Board Staff interrogatories (i.e. this set of

questions starts at #45).

Exhibit 3 - Operating Revenue

45. Weather Normalization and Modelling

Ref: Response to Board staff interrogatory #18

In response to Board Staff Interrogatory #18, PDI provided a document entitled Attachment A: "Feed into OEB Cost Allocation Model ...". The Attachment does not provide any information that would assist in converting PDI's actual load to its weather normalization load

Please provide the originally requested information including, at a minimum, the 2004 weather correction factors by customer class as determined by Hydro One for PDI.

Response:

The following table summarizes the calculation of the weather normalized retail kWh per customer (i.e. column G) used in the PDI load forecast. The information in column (A) and (B) is from the Hydro One spreadsheets that were prepared for the cost allocation study. Copies of the Cost Allocation Input Model Sheet and the Data Summary from that Hydro One spreadsheets accompany these responses as Attachment A.

46. Re-filing evidence

Ref: Response to Board staff interrogatory #25

In response to Board Staff Interrogatory #25, PDI stated: "PDI's evidence does not need to be adjusted in light of PDI's responses to the preceding customer count, load and revenue forecasting interrogatories."

However, in its responses to other forecasting interrogatories (e.g. Board staff interrogatories #17 and #21, and VECC interrogatory #3), PDI acknowledges that errors were made in its filed evidence.

Please:

a. Confirm that none of the recognized errors impact the forecast filed in Exhibit 3/Tab 2/ Schedule 2/ Page 3/ Table 3,

Response:

PDI confirms that none of the recognized errors impact the forecast filed in Exhibit 3/Tab 2/ Schedule 2/ Page 3/ Table 3.

b. If part a. is addressed in the affirmative, confirm that the load forecast on which PDI will rely is that contained in Exhibit 3/Tab 2/ Schedule 2/ Page 3/ Table 3, filed October 9, 2008, and

Response:

PDI confirms that the load forecast on which it will rely is that contained in Exhibit 3, Tab2, Schedule 2, Page 3, Table 3, filed on October 9, 2008.

c. If part a. is addressed in the negative, provide in the format of Exhibit 3/Tab 2/ Schedule 2/ Page 3/ Table 3, the load forecast on which PDI will rely.

Response:

Exhibit 4 - Operating Costs

47. OM&A Expenses

Ref: Response to Board Staff Interrogatory #27 c)

In response to interrogatory #27 c), PDI provided a table indicating the cost drivers from 2006 to 2009. Board staff would like some clarification of the drivers. The following table was developed from the table provided in the response. Column 7 is the percentage each driver contributes to the change from 2006 to 2009 with the exclusion of line 19 CDM.

| | Col. 1 2006 | Col. 2 2007 | Col. 3 2008 | Col. 4 2009 | Col. 5 Total | Col. 6 09/06 | Col. 7 |

- a. Line 3, GIS, has increased \$63,000 in two years.
 - i. Will GIS continue to increase costs?
 - ii. If costs continue to increase, what are the quantifiable benefits?
 - iii. What are the expected costs for GIS for 2010 2012?

Response:

The GIS increase of \$63,000 in two years represents the hiring of an additional employee dedicated to this activity. The GIS costs will increase in accordance with the PUSI labour agreement.

Peterborough Distribution Inc.
Responses to Board Staff Supplementary Interrogatories

Filed: March 25, 2009

Page 5 of 22

An increased emphasis has been directed toward improving asset management and the importance of balancing overall life cycle costs and system reliability. To effectively support this a new GIS Technician was budgeted to support these plans by compiling, updating, migrating, integrating and utilizing asset information as it relates to PDI's assets.

Management cannot quantify the benefits at this point, but Management expectations are as follows:

- 1. to guide the acquisition, use and disposal of distribution system assets,
- to provide the level of service required by customers in the cost-effective manner,
- 3. to allow for better decision making regarding the allocation of funds, between maintenance and capital.
- 4. to allow for more effective financial planning regarding the maintenance and utilization and operation of a physical resource throughout its life, which will ultimately result in lower maintenance and capital costs, and
- 5. to provide rate stability.

The expected costs for 2010 – 2012 are:

- 2010, \$64,000
- 2011, \$65,500
- 2012, \$67,000
- b. Line 5, Software & Equipment Rental, has a different impact than shown in Exhibit 4, Tab 2/Schedule 4, page 13, Table 1. Please explain the differences.

Response:

The impact shown in Line 5 is correct. The 2008 Bridge Year building rent cost shown in Exhibit 4, Tab 2, Schedule 4, page 13, Table 1 should have been \$115,000 higher for additional costs related to an environmental clean-up expense. That expense was referenced in the 2007 Actual vs. 2006 Actual expense analysis in Exhibit 4, Tab 2, Schedule 3, page 10 of 13, Lines 1 to 11.

c. Line 14, Failed meter sample group purchases, shows an increase of \$30,000 in 2007. There is no offsetting reduction showing in the subsequent years. One would assume that a failed group would mean immediate replacement under the

Peterborough Distribution Inc.
Responses to Board Staff Supplementary Interrogatories

Filed: March 25, 2009 Page 6 of 22

Electricity and Gas Inspections Act (R.S., 1985, C. E-4). Why is the \$30,000 remaining in operating costs?

Response:

PDI confirms that there should have been an offsetting reduction shown in the subsequent year. PDI has prepared a revised table setting out necessary adjustments to the table prepared by Board Staff. That table is presented below, following PDI's response to question 47(e).

d. Line 15, PCB Testing, has \$100,000 showing for 2009. Are these costs expected to continue at \$100,000 per year through to 2012?

Response:

A better description of the activity at Line 15 is maintenance of line transformers. The cost of this activity is expected to increase by approximately \$95,000. PCB testing comprises \$75,000 of the increase. As referenced in Exhibit 4, Tab 2, Schedule 3, page 12 of 13, line 16, the PCB testing in 2009 is the first year of a three year program to test up to 300 transformers per year

- e. Line 22, Difference, is the difference between line 20 (the sum of lines 1 19) and line 21, Closing Balance per Exhibit 4. For Column 2, 2007 the difference is \$184,052.
 - i. Please explain these costs.
 - ii. Why do they continue into 2008 and 2009, and perhaps past 2009?

Response:

The details of the \$184,052 variance are presented below.

The original table has been further analyzed, and PDI confirms that the costs in 2007 do not continue into 2008 and 2009. A revised table is presented below following a summary of the various adjustments resulting from the inclusion of the 2007 variance of \$184,052. The adjustments include certain adjustments to 2006 data.

The adjustments to the table are as follows:

2006:

- Inflation and other: -\$29,000
 - Amount was removed and further analyzed as follows:

Peterborough Distribution Inc.
Responses to Board Staff Supplementary Interrogatories

Filed: March 25, 2009

Page 7 of 22

- Outside professional services, -\$12,000
 Decrease in cost compared to 2005
- Regulatory: +\$48,000Change in accounting treatment of OEB fees per the 2006 Electricity Distribution Rate Handbook.

2007:

- Storm damage: +\$129,000
 - Requirement to track yearly storm damage costs, adjusted for the incremental change between the 2006 major storm costs and 2007 normalized storm costs
- Maintenance of building and fixtures (including line reframing): +\$30,000
 - Additional maintenance required in 2007 in addition to the line reframing project
- Tree trimming: -\$15,000
 - o 3 year cycle for Lakefield and Asphodel-Norwood, costs removed in 2007
- Outside professional services: +\$25,000
 - Increased outside professional services
- Regulatory: +\$17,000
 - Increased OEB fees

2008:

- Storm damage: +\$29,000
 - o Transferred from 2009 column
- Failed meter group: -\$30,000
 - Removal of 2007 one time costs
- Maintenance of building and fixtures (including line reframing): -\$30,000
 - Removal of 2007 one time costs
- Outside purchases: +\$12,000
 - o Increase outside professional services related to PDI 2008 IRM
- Regulatory: +\$10,000
 - Increased OEB costs

2009:

- Storm damage: -\$29,000
 - o Transferred to 2008
- Transformer maintenance (incl. PCB testing): -\$5,000
 - Adjustment to the transformer maintenance expense which includes PCB testing
- Maintenance of meters: \$25,000
 - testing 22 primary meters per year for three years
- Maintenance of buildings and fixtures: +\$10,000

Please see the revised table provided below.

Responses to Board Staff Supplementary Interrogatories

Filed: March 25, 2009 Page 9 of 22

48. OM&A Expenses – Smart Meter Operating Expenses

Ref: Response to Board Staff Interrogatory #28 c)

In its response to part iii), PDI states that one of the drivers in the increase in metering operating expenses from 2006 to 2009 test year is \$47,000 related to anticipated smart meter activities. Please explain why PDI is including these in its operating expenses for inclusion in the revenue requirement rather than tracking these in deferral account 1556? Please provide further explanation of the smart meter activities for which these operating costs are being incurred.

Response:

The \$47,000 increase for anticipated costs associated with the smart meter activities was not tracked in the deferral account as management did not consider this to be new incremental cost, but rather a redistribution of existing resources. As noted in the 2008 Bridge Year vs. 2007 Actual explanation in Exhibit 4, Tab 2, Schedule 3, Page 10 of 13, Lines 18 to 19 and 21 to 22, the Customer Service Technical department, that provided support to the Field Technical department, was restructured. One of the employees was transferred to the Field Technical department which is responsible for the maintenance of meters, transformers and substation.

Page 10 of 22

49. Smart Meter Deferral Accounts balances

Ref: Response to VECC Interrogatory #18

In its response to this interrogatory, PDI states that the December 31, 2008 smart meter deferral account balance is \$809,948. Please provide a breakout of this amount for: i) smart meter funding adder revenues (account 1555); ii) capital expenditures (account 1555); and iii) operating expenses (account 1556).

Response:

The amount stated was incorrect. The smart meter deferral account balance at December 31, 2008 is \$802,948, and is summarized below:

| Total | \$802,948 |
|------------------------------------|-------------|
| Operating expenses | \$0 |
| Carrying charges | \$37,086 |
| Capital expenditures | \$1,037,224 |
| Smart meter funding adder revenues | (\$271,362) |

Ref: Response to Board Staff Interrogatory #28 d)

Board staff requested the cost for reframing that is the explanation for the \$54,472 increase in Account 5110; Maintenance of Buildings and Fixtures in 2007. In its response, PDI stated that the reframing was estimated to be \$25,000. Board staff interprets this to mean that the total cost for reframing was \$25,000 for the estimate and \$54,472 as over the estimate, a total of \$79,472.

Is Board staff's interpretation correct?

Response:

No, Board staff's interpretation is not correct

ii If correct, please explain the increase of over 200% from the estimate

Response:

N/A

iii If not correct, what was the cost of the reframing, and explain any variance from the actual.

Response:

The total increase in Account 5110, Maintenance of Building and Fixtures, in 2007 was \$54,472 of which \$25,000 was specifically related to a reframing project. The remaining costs of approximately \$30,000 represent other various one time costs. The total costs of \$55,000 have been removed in the 2008 column in the table provided in response to Question 47 above.

iv Why are these costs in this account and not a maintenance account for lines or feeders?

Response:

The amount should have been recorded in a maintenance accounts for lines and feeders, however the transfer between the accounts has no impact on PDI's proposed 2009 revenue requirement.

Page 12 of 22

51. OM&A Expenses – Regulatory Expenses

Ref: Response to Board Staff Interrogatory # 29

In its response, PDI pointed out that Account 5655, Regulatory Expenses, is essentially the OEB Annual Assessment, Section 30 Costs and a minor amount of \$2,000 for other, totalling \$120,000. It also pointed out that in Account 5630, Outside Services Employed, is \$260,021 which are costs associated with regulation.

a. For Account 5630, please complete the following table:

Response:

PDI has identified \$120,000 of costs within account 5630, Outside Service Employed that have been included in the requested table. The \$120,000 represents:

- Line 1, OEB Hearing Assessment (applicant initiated including Intervenor costs), \$20,000
- Line 3, Legal Costs for Regulatory Matters, Interrogatory assistance and hearing costs, \$30,000
- Line 4, Consultant Costs for Regulatory Matters, Rate Application costs \$50,000
- Line 6, Any Other Costs for Regulatory Matters, Deferral Account Review Initiative \$20,000

PDI has completed the table as requested:

| Regulatory Cost Category | Ongoing or One- time Cost? | 2006 Board Approved | 2006 Actual | 2007 Actual | % Change in 2007 vs. 2006 | 2008 (As of Sept 2008) | % Change in 2008 vs. 2007 | 2009 Test Year | % Change in 2009 vs. 2008 |
|---|-------------------------------------|---------------------------|----------------|----------------|------------------------------------|---------------------------------|------------------------------------|-------------------|------------------------------------|
| OEB Hearing Assessments (applicant initiated – including intervenor costs) | One-time | 0 | 0 | 0 | 0 | 0 | 0 | 20,000 | |
| Expert Witness cost for regulatory matters | | 0 | 0 | 0 | 0 | 0 | 0 | 0 | |
| Legal costs for regulatory matters | One-time | 0 | 0 | 0 | 0 | 0 | 0 | 30,000 | |
| Consultants costs for regulatory matters | Ongoing | 0 | 23,000 | 11,000 | -52.2% | 30,000 | 172.7% | 50,000 | 67% |
| 5. Operating expenses associated with staff resources allocated to regulatory matters | | | | | | | | | |
| 6. Any other costs for regulatory matters (please define) 7. Operating expenses associated with other resources allocated to regulatory matters (please identify the resources) | Ongoing | 0 | 0 | 0 | 0 | 0 | 0 | 20,000 | |
| 8. Other regulatory agency fees or assessments | | | | | | | | | |

b. Please explain any on-going costs and, in particular, the need for maintaining the same cost levels for the more formula approached IRM rate applications for years beyond this application.

Response:

Management anticipates that costs related to regulatory matters included in this Application will continue through the 3rd Generation IRM period. Management will be considering LRAM and SSM applications as well as a Smart Meter application upon full implementation of the smart meter program in 2009. Management anticipates but is unable to quantify increased regulatory and administrative costs associated with the Green Energy Act and increased CDM activities.

PDI is planning for and anticipates additional involvement in regulatory initiatives and proceedings to address such matters as the Deferral Account Review, IFRS integration with rate design as well as the possibility of a review of the load data forecast methodology inherent within the industry

c. Given that outside services require PDI staff's time for providing clean data, management information and assisting in developing the required evidence, has PDI made any business case/analysis for hiring and using its own expertise in order to reduce the cost of outside services? If so please file this information.

PDI has not performed a business case analysis for hiring its own expertise at this time. A cost benefit analysis may be performed when this Application has been completed.

Exhibit 5 – Deferral and Variance Accounts

52. Deferral/Variance Accounts:

Ref: Response to Board Staff Interrogatory #39

a. In part 'a' of the response, with respect to the RSVA Power Account 1588, PDI has provided the balance including global adjustment as \$1,052,187. Of this total, \$632,681 represents the global adjustment (sub-account) balance and \$419,506 represents the cost of power balance. However, the disposition of these balances impact customers differently in rates. The cost of power balance is attributable to all customers, whereas the global adjustment balance is attributable to only non-RPP customers. Please indicate whether the rate rider provided allocations to the account balances attributable to customers are on the basis described above. If not, please provide for each balance separately the appropriate allocations to customers in the rate rider.

Response:

The rate rider allocated the account balances to all customers. The data to separate RPP and non-RPP kWh's by customer class is not available. However, PDI has developed a rate rider that uses the residential and GS<50 customer classes as a reasonable approximation of RPP consumption. Separate rate riders for each account balance have been calculated on this basis in the spreadsheet: "Deferral and Variance Account Riders – accounts specified by OEB_Dec2007 balance.xls". A copy of that spreadsheet is provided as Attachment B to these responses.

b. Why is PDI not seeking disposition of RSVA Power Account 1588 at this time?

Response:

A letter from the OEB dated February 19, 2008 stated that the Board intended to launch an initiative for the review and disposition of Account 1588. PDI was awaiting the results of that initiative.

- c. Notwithstanding your response to part b, please respond to the following general questions:
 - i. Have you sought disposition of Account 1588 in any other proceeding and if so please provide details?

Peterborough Distribution Inc.
Responses to Board Staff Supplementary Interrogatories

Filed: March 25, 2009 Page 16 of 22

Response:

Yes, PDI's 2006 Board Approved rates included a rate rider that disposed of the December 31, 2004 balance plus accrued interest to April 30, 2006.

ii. Please complete the continuity schedule provided with the original set of interrogatories showing the account principal balance and interest charges separately, by quarter, since the last time the balance in Account 1588 was dispositioned.

Response:

The continuity schedule provided with the original set of interrogatories requested annual data. The account principal balances and interest charges are shown from January 1, 2005 until December 31, 2008 with interest forecast to April 30, 2009. This information is provided in the spreadsheet: "OEB_IR_2009 continuity sched_1588.xls". A copy of that spreadsheet is provided as Attachment C to these responses.

iii. Please provide a copy of all Ministry of Finance audit reports pertaining to IESO form 1598. Are there any amounts in dispute between IESO and PDI? If so what is the nature on form 1598 of the dispute and has it impacted the balances of the quarters?

Response:

No, there are no amounts in dispute between the IESO and PDI. Copies of the reports for the audits performed in 2005 and 2007 are enclosed as Attachment D to these responses.

iv. Are there any Ministry of Finance audits that have been completed but not yet reported? Please provide a progress report.

Response:

No.

v. Please provide a description of actions taken to remedy any concerns raised by the Ministry of Finance audit.

Response:

PDI's responses to any concerns raised by the audits are attached to the audit reports.

Peterborough Distribution Inc.
Responses to Board Staff Supplementary Interrogatories

Filed: March 25, 2009 Page 17 of 22

vi. Please describe any adjustments out of the norm that have been processed in Account 1588 (e.g. IESO adjustments, audit adjustments, etc.).

Response:

No adjustments out of the norm have been processed.

vii. Have all entries to Account 1588 been prepared in accordance with the approved procedures and methods authorized by the Board? If not, please explain all deviations, exceptions or variations used or where subsequent (to year-end) audit adjustments have modified original entries.

Response:

All entries have been prepared in accordance with the approved procedures and methods authorized by the Board.

viii. Please provide a list of any IESO charge codes that were classified/recorded in Account 1588.

Response:

The following IESO charge codes have been recorded in Account 1588:

0101 Net Energy Market Settlement for Non-Dispatchable Load

0142 Regulated Price Plan Settlement Amount

0146 Global Adjustment Settlement Amount

0149 Regulated Price Plan Retailer Settlement Amount

ix. Were any customer bad debt write-offs or provisions recorded in Account 1588? If yes, please provide complete details.

Response:

No.

x. Are the guidelines outlined in the Regulatory Audit Bulletin, issued on September 11, 2007, regarding the reporting of the Sub-Account 1588 for Global Adjustment, being followed?

Peterborough Distribution Inc.

Responses to Board Staff Supplementary Interrogatories Filed: March 25, 2009

Page 18 of 22

Response:

Yes.

xi. Was the cash or accrual method used to account for Account 1588? Was this method used consistently over the life of Account 1588 and if not, explain?

Response:

The accrual method has been used, except for carrying charges where accruals have been excluded in accordance with Article 490 of the Accounting Procedures Handbook. This method has been used consistently over the life of Account 1588.

xii. Please provide the interest rates used to calculate carrying charges on Account 1588 for every quarter over the life of the account.

Response:

The requested rates are set out in the following table:

Interest Rates

| 2002 – 2005 | January - December | 7.25% |
|-------------|---------------------|-------|
| 2006 | January - April | 7.25% |
| 2006 | May - June | 4.14% |
| 2006 | July - December | 4.59% |
| 2007 | January - September | 4.59% |
| 2007 | October - December | 5.14% |
| 2008 | January - March | 5.14% |
| 2008 | April - June | 4.08% |
| 2008 | July - December | 3.35% |

- xiii Please provide applicable rate riders if the December 31, 2008 account balance was to be cleared over:
 - o 12 months
 - o 24 months
 - o 36 months
 - o 48 months

Exhibit 6 – Cost of Capital and Rate of Return

53. Long Term Debt

Ref: Response to Board Staff Interrogatory #40

a. In response to Board Staff Interrogatory #40 part a, PDI has provided copies of the Promissory Notes payable to the Corporation of the City of Peterborough (the "City"). Board staff understands that these notes are, in effect, callable Demand Notes without fixed maturity and attracting an interest rate of the Royal Bank of Canada, termed the Prime Rate, less 1.25%. In each of the Promissory Notes, Clause 4 of the note states:

"The Debtor may at any time, without penalty, repay in whole or in part the principal amount and interest owing under this Promissory Note. Any prepayment shall be applied first to interest until it has been paid in full and then to principal."

In its approved distribution rates, PDI is recovering amounts for both interest expenses (i.e. the interest expense on the deemed debt portion of its approved rate base) and on the principal, in the form of depreciation expense for capital assets funded through equity and debt financing.

Has PDI ever invoked Clause 4 of a Promissory Note to allow it to repay the debt, including replacing the debt with third-party debt. If so, please provide details. If not, please explain PDI's rationale for its debt treatment and how this is of benefit to ratepayers.

Response:

No, PDI has not invoked clause 4 of the promissory note that allows for repayment of the debt and replacing it with third-party debt.

The demand loans in the amounts of \$437,000 and \$1,063,000 executed with the City of Peterborough were required for the acquisitions of Asphodel-Norwood and Lakefield Distribution Companies. Management considers these debts as long-term. The rate of bank prime less 1.25% is a benefit to rate payers as it has historically and is currently less than the deemed long-term debt rate established by the OEB.

For 2009 forward test year cost of service applications, the deemed long-term debt rate, recently announced by the Board in its February 24, 2009 Cost of Capital Parameter Updates for the 2009 Cost of Service Applications, is 7.62%. PDI requests that the new

Peterborough Distribution Inc. Responses to Board Staff Supplementary Interrogatories

Filed: March 25, 2009

Page 21 of 22

Cost of Capital Parameters be applied to PDI's Application, as reflected in the 2009 test year table provided in response to Question 53 b) below.

b. In the response to Board Staff Interrogatory #40 part d, PDI states that it has acquired additional long-term debt in December 2008. However, PDI has not updated its proposed cost of debt. Please provide an update of the proposed long-term debt rate, in the form of the following table, for each of 2006 actual, 2007 actual, 2008 bridge and 2009 test years:

Response:

Please see the completed tables on the following page.

Peterborough Distribution Inc. Responses to Board Staff Supplementary Interrogatories

Filed: March 25, 2009

ATTACHMENT B

REFERENCE: BOARD STAFF QUESTION 52(a)

SHEET 1 - Regulatory Assets - Continuity Schedule

| NAME OF UTILITY NAME OF CONTACT E-mail Address | Peterborough Distribution Inc. | LICENCE NUMBER DOCID NUMBER | ED-XXXX-XXXX EB-200X-XXXX |
|--|--------------------------------|--------------------------------|------------------------------|
| VERSION NUMBER Date | v3.0 | PHONE NUMBER (extension) | |

Annual Jan 1 08 - April 09 Interest Rate

Enter appropriate data in cells which are highlighted in yellow only.

Enter the total applied for Regulatory Asset amounts for each account in the appropriate cells below:

Debits should be recorded as positive numbers and credits should be recorded as negative numbers.

Repeat cells going across as necessary for each year in application

¹ As per general ledger, if does not agree to Dec-31-04 balance filed in 2006 EDR then provide supplementary analysis

² Provide supporting statement indicating whether due to denial of costs in 2006 EDR by the Board, 10% transition costs write-off, and etc.

³ Provide supporting statement indicating nature of this adjustments and periods they relate to

⁵ Closed April 30, 2002

⁶ For RSVA accounts only, report the net additions to the account during the year. For all other accounts, record the additions and reductions separately.

⁷ Please describe "other" components of 1508 and add more component lines if necessary.

⁸ 1563 is a contra-account and is not included in the total but is shown on a memo basis. Account 1562 establishes the obligation to the ratepayer.

⁹ Interest projected on December 31, 2007 closing principal balance.

¹ As per general ledger, if does not agree to Dec-31-04 balance filed in 2006 EDR then provide supplementary analysis

² Provide supporting statement indicating whether due to denial of costs in 2006 EDR by the Board, 10% transition costs write-off, and etc.

³ Provide supporting statement indicating nature of this adjustments and periods they relate to

⁴ Closed April 30, 2002

⁵ For RSVA accounts only, report the net additions to the account during the year. For all other accounts, record the additions and reductions separately.

⁶ Please describe "other" components of 1508 and add more component lines if necessary.

Interest projected on December 31, 2007 closing principal balance.

⁸ 1563 is a contra-account and is not included in the total but is shown on a memo basis. Account 1562 establishes the obligation to the ratepayer.

RE: Audit of Claims from the Electricity Consumer Price Protection Fund for

- Asphodel-Norwood Distribution
- Lakefield Distribution Inc.,

BL

Peterborough Distribution Inc.

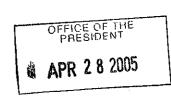

We have now completed our review of the records supporting your monthly funding requests to the IESO under the Electricity Consumer Price Protection Fund (ECPPF).

The audit covered the period from inception of the program to December 2004. As part of the review, we took note of management's representations, examined the monthly submission forms, reviewed supporting documents made available to us and selected a sample for additional audit work.

During our review we have made three observations and they are attached.

We did not perform detailed audits on all claims submitted and these claims could still be the subject of a more detailed review at a later date.

Should you have any comments, concerns or questions dealing with this review please contact the undersigned at (416) 325-8316 or Richard Rose, CA, Manager of Accounting, Ontario Electricity Financial Corporation at (416) 325-1229.

We would like to thank you and your staff for the co-operation and assistance we received during this review.

Yours truly,

Larry Yarmolinsky, MBA, CA Audit Director

Observations

The following are the observations that require additional action on the part of management. We request that Sanjay Kankaria be informed of the disposition of the following items:

1. Claims Related to The Embedded Generator included Twice

Peterborough Utilities has included the claim amounts relating to their Embedded Generators twice in the claim process. It has been included in:

Box 2 - Payments re Distributors and

Box 4 - Payments re Embedded Generator

Estimated kWh until December 31, 2004

38,785,880

Over-claimed amount until December 31, 2004

\$376,462

Although not included initially in the claims process, the reconciliation to actual inadvertently added the claims related to the embedded generator to the Box 2 claim amount. As it was already included in Box 4 during the initial claims process, the result is a double claim.

Action to be taken and expected completion date

Peterborough Utilities should return the \$376,462 related to the over-claimed Embedded Generators, to the IMO at their earliest convenience. Please provide our office with copies of the claim form submitted to return these funds and the supporting calculations/documentation by May 30, 2005.

2. Self-Declaration Forms

During our review of customers with annual consumption greater than 250,000 kWh, we noted that many designated customers had not submitted their self-declaration forms to indicate that they qualified within the list of designated customers to receive the fixed rate of electricity. Among the customers who have submitted the self-declaration forms, several of the customers have not indicated the exact subsection under which they have qualified for designation.

Action to be taken and expected completion date

We suggest that all eligible designated customers be asked to file their self-declaration form, in order to continue to receive electricity at the fixed rate. All the customers should indicate, on their self-declaration forms, the exact subsection under which they qualify as a designated customer.

3. December 2002 1506 Claim Underpaid by IESO

During our review of the 1506 claims, we noted that the first 1506 claim in December 2002 was under paid by the IESO as a result of a recording error. The amount owing to Peterborough Utilities is \$3,926.

Action to be taken and expected completion date

Peterborough Utilities can file a 1506 claim for \$3,926 at their earliest convenience. Please provide our office with copies of the claim form submitted to claim these funds and the supporting calculations/documentation by May 30, 2005.

Mr. Sanjay Kankaria Risk and Assurance Consultant Internal Audit Division Management Board Secretariat 777 Bay Street, 11th Floor Toronto, Ontario M5G 2C8

Dear Mr. Kankaria:

Audit of claims from the Electricity Consumer Price Protection Fund

We are writing to inform you of the disposition of the four observations provided in your draft audit report.

1. Claims related to the embedded generator included twice Your audits of utilities revealed that those with embedded generation double claimed due to the ad hoc evolution of the claims process. On April 6, 2005, we submitted Form 1506 to return \$376,462 relating to Embedded Generation claims. The IESO accordingly charged us this amount on their April 14 physical invoice.

2. Self-Declaration Forms

Since the ministries did not provide any direction to the designated customers who qualify under their acts or subsections, customers for the most part do not know whether they qualify or not, nor do they know the subsection which pertains to them. In addition, it is doubtful whether the Accounts Payable Clerk who is often the customer contact in our billing system would have any idea who should submit such a form, if it existed. Is it your intent that we end eligibility for all customers who do not provide a ministry designation form?

3. <u>December 2002 1506 claim underpaid by IESO</u>
On April 6, 2005, we submitted Form 1506 to claim \$3,926 relating to our December 2002 claim which was underpaid by the IESO. The IESO accordingly rebated this amount on their April 14 physical invoice.

4. Audit Trail

We have begun to screenprint the thirteen steps of the monthly 1598 claim calculation for filing with the claim forms.

We are fortunate to have benefited from your audit experiences at other utilities. I was grateful for your level of understanding of the conditions under which we have operated in this industry for the last few years.

Thank you to you and to Jeff for your professionalism and efficiency.

Yours truly,

Marie Virgoe

December 7, 2007

Mr. Larry Doran
President and Chief Executive Officer
Peterborough Utilities Incorporated
1867, Ashburnham Drive, Box 4125
Peterborough Ontario K9J 6Z5

Dear Mr. Doran

RE: Audit of Claims from the Regulated Price Plan Fund

We have now completed our review of the records supporting your monthly requests to the IESO under the Regulated Price Plan (RPP).

The audit covered the period from inception of the program to September, 2007. As part of the review, we took note of management's representations, examined monthly submission, reviewed supporting documents made available to us and selected a sample for additional audit work. We did not perform detailed audits on all claims submitted and these claims could still be the subject of a more detailed review at a later date.

During our review, we have made 2 observations.

We request that your office inform Richard King, Audit Manager of our office of the action taken to clear the observations.

Should you have any comments, concerns or questions dealing with this review, please contact the undersigned at 416-325-8318 or Richard King at (416) 325-4832. We would like to thank you and your staff for the co-operation and assistance we received during this review.

Yours truly,

Sanjay Kankaria, CMA, CIA, CISA Risk and Assurance Consultant

Observations:

The following are the observations that require additional action on the part of management.

1. Customer Getting Fixed RPP Rate

During our review of customers using more than 250,000 KWh per annum we identified the following instance of the potential ineligible customers getting the fixed rate.

| Account | Location | Name of the Customer | 2006 KWH |
|---------|----------|--------------------------------|-----------|
| | | | |
| 120845 | 29580 | Alexander Medical Building Inc | 770,160 |
| 120786 | 29523 | Medical Centre | 464,280 |
| | | Total | 1,234,440 |

Action to be taken

We recommend that the Peterborough Distribution Inc investigate and reclassify the customer to be billed at spot rate rather than at the fixed rate.

2. Locking of the formulae in the excel worksheet on the 1598 claims

We observed that the formulae in the excel spreadsheets used for calculating the claim amount are unprotected. Therefore there is potential risk of accidental and inadvertent modification in the formulae resulting in erroneous calculation/ claim.

Action to be taken

We recommend that Peterborough Distribution Inc should consider locking of the formulae in the Excel worksheets used for calculating the RPP claim amount. We also recommend that any modification to the formulae should be accompanied by a second party verification and documentation containing the reason for modification of the existing formulae.

Mr. Richard King, Audit Manager, Ontario Internal Audit Division Ministry of Finance 777 Bay Street, 11th Floor Toronto, Ontario M5G 2C8

Dear Mr. King:

Audit of claims from the Regulated Price Plan Fund

We are writing to inform you of the ensuing action as a result of the observations provided in your draft audit report.

- Customer Getting Fixed RPP Rate
 Account 120845 has given up its RPP eligibility by signing a contract with a retailer. Account 120786 will be reclassified and billed at spot rate.
- 2. Locking of the formulae in the excel worksheet on the 1598 claims

 We have locked the formulae in the worksheets used to calculate the RPP claim amount. Our procedure documentation has been updated to add a second party verification of any modification to existing formulae and a requirement to document the reason for the change.

I have enclosed a copy of the signed Certification of Accuracy you requested.

As with our previous audit, we have benefited from your audit expertise. Sanjay and Pat are knowledgeable, well organized, and a pleasure to work with.

Yours truly.

IN THE MATTER OF the Ontario Energy Board Act, 1998, S.O. 1998, c. 15, (Schedule B);

AND IN THE MATTER OF an application by Peterborough Distribution Inc. for an order approving just and reasonable rates and other charges for electricity distribution to be effective May 1, 2009.

Peterborough Distribution Inc. ("PDI") Responses to Vulnerable Energy Consumers ("VECC") Supplementary Interrogatories

Filed: March 25, 2009

PLEASE NOTE: The numbering of these questions and responses carries on from

the original set of VECC interrogatories (i.e. this set of questions

starts at #25).

Question #25

Reference: i) VECC #1 a) - c)

a) Please confirm whether the same volumes were used to calculate the two distribution revenue values (\$13,627,922 and \$14,134,398) and whether all that changed was the rates used (i.e., 2008 vs 2009 for 1/3 of the year). If not please explain more fully the basis for the \$12,350,793 value quoted in response to part (b).

Response:

PDI confirms that the same volumes were used to calculate the two distribution revenue values, and that all that changed was the rates used. The \$13,627,922 fiscal year projection is based upon the 1/3 revenues derived from the 2008 IRM and 2/3 from the 2009 rate rebasing.

- b) The response provided did not address part (b) of the original interrogatory. Please provide a schedule that set out the rates, billing parameters and revenues for each customer class that reconcile with the revenue of \$14,134,398. Furthermore, with respect to the rates used, please clarify whether the rates:
 - Include the smart meter rate adder
 - Include the LV charge adder
 - Allow for the reduced revenues due to the transformer ownership allowance discount.

Peterborough Distribution Inc. Responses to VECC Supplementary Interrogatories

Filed: March 25, 2009 Page 2 of 19

Response:

The \$14,134,398 base revenue requirement does not include the smart meter rate adder or the LV charge adder and is net of the transformer allowance. The requested schedule has been provided below:

| | 2 | 2009 BILLING | PARAMETERS | ; | 2 | 2009 RATE | S | | | REVE | ENUE | |

- c) Please provide a schedule that shows 2009 revenue for each class assuming the 2009 billing parameters and 2008 rates. The schedule should include the billing parameter values and rates applicable to each class and the 2008 rates used should be as follows:
 - Exclude the smart meter rate adder
 - Exclude the LV charge adder
 - Allow for the reduced revenue due to the transformer ownership allowance discount.

Response:

The requested table is provided below.

Peterborough Distribution Inc. Responses to VECC Supplementary Interrogatories

Filed: March 25, 2009 Page 4 of 19

Question #26

Reference: i) VECC #3 b)

ii) Board Staff #21 c)

a) The response to (i) states that the difference between the two values is losses. Board Staff #21 c) sets out the loss factors used. How were these loss factors established?

Response:

PDI is unable to find a statement in reference (i) to the effect that the difference between the two values is losses. In addition, Board Staff #21 c) sets out Adjustment Factors, not loss factors, which are explained in 21 a).

However, with respect to the establishment of the loss factors, the 2004 billing data provided to Hydro One consisted of:

- all billed consumption between Jan. 1 and Dec. 31, 2004:
 - loss adjusted;
 - summarized by NAICS code; and
 - adjusted by unbilled to reconcile to the wholesale meter purchases.

Question #27

Reference: i) VECC #3 c) & d)

a) From the response to VECC #3 d), the 2002 kWh for the Large Use rate class are materially less than any of the subsequent years. Why is it reasonable to include 2002 values in the calculation of the average use for this class for purposes of forecasting 2008 and 2009 use.

Response:

The load forecasting method used by PDI was in most cases used by 2008 cost of service/rebasing Applicants. Generally, the 2008 Applicants used 2002 values in the calculation of average use for classes that were not weather sensitive such as Large Use. In order to be consistent with the 2008 Applicants, PDI included the 2002 values in the calculation of the average use for the purposes of forecasting 2008 and 2009 volumes for all non-weather sensitive classes (i.e. Large Use, Street Lighting, Sentinel Lighting and USL).

Question #28

Reference: i) VECC #8 a)

a) Please provide a schedule that shows precisely how the revenue proportions used in Column E were derived from the results of the cost allocation study and precisely what adjustment was made for the transformer ownership allowance.

Response:

The requested information is provided in the following table:

| | | Less | Cost Allocation | | | |
|-----------------|--------------|---------------|-----------------|-------------|--------------|--|
| | Revenue | Transformer | Revenue | | 2009 Costs | |
| | Requirement | Allowance | Requirement | | Based on | |
| | From Cost | Assumed in | Excluding | | Updated C.A. | |
| | Allocation | 2006 Approved | Transformer | (D) = | Study | |
| | Model | Revenue | Allowance | Proportions | (E) = (D) * | |
| | (A) | (B) | (C) = (A) - (B) | of (C) | \$15,753,249 | |
| Residential | \$7,688,598 | \$0 | \$7,688,598 | 56.1% | \$8,842,267 | |
| GS <50 kW | \$2,359,411 | \$0 | \$2,359,411 | 17.2% | \$2,713,438 | |
| GS>50 kW | \$2,461,200 | \$162,515 | \$2,298,685 | 16.8% | \$2,643,601 | |
| Large User | \$261,860 | \$79,936 | \$181,923 | 1.3% | \$209,221 | |
| Sentinel Lights | \$65,325 | \$0 | \$65,325 | 0.5% | \$75,127 | |
| Street Lighting | \$725,242 | \$0 | \$725,242 | 5.3% | \$834,064 | |
| USL | \$378,705 | \$0 | \$378,705 | 2.8% | \$435,530 | |
| Total | \$13,940,341 | \$242,451 | \$13,697,890 | 100.0% | \$15,753,249 | |

Question #29

Reference: i) VECC #9 a) & b)

a) Please explain how the weighted average monthly service charge and volumetric charge is determined for each class.

Response:

Based on the information provided in response to Question 25 c), above, the weighted average monthly service is the total of 2009 fixed revenue at existing rates from all service areas divided by the 2009 number of customer/connections. The weighted volumetric charge is the total of 2009 volumetric revenue at existing rates from all service areas divided by 2009 kWh or kW.

b) Please provide a schedule that sets out the kW for each class that are eligible for the transformer ownership allowance discount in 2009.

Response:

The transformer ownership allowance in the 2009 rate model allocates the entire 250,239 kW to the GS > 50 class, as this is the only class eligible for the transformer ownership allowance discount in 2009.

Question #30

Reference: i) VECC #9 c)

a) Please confirm that the Cost Allocation study filed as Exhibit 8, Tab 1, Schedule 2, Appendix A is for PDI's entire service area including the Asphodel-Norwood and Lakefield service areas.

Response:

Yes, the cost allocation study is for PDI's entire service area, consisting of Peterborough, Asphodel-Norwood and Lakefield.

Question #31

Reference: i) VECC #10 a)

a) Please indicate the basis for the Jan-April and May-Dec rates for each class shown in the response.

Response:

The Jan-April rates are the amounts included in PDI's 2008 OEB-approved distribution rates. The May-Dec rates were a forecast for 2009 LV rates that was used to develop the cost of power component of working capital.

- b) Please provide a schedule that sets outs out the LV charges that PDI would pay HON based on
 - a. 2007 LV usage and Hydro One Networks recently approved (January 2009) LV charges
 - b. 2008 LV usage and Hydro One Networks recently approved (January 2009) LV charges.

Response:

The requested information is provided below:

Low Voltage Charges

| | 2009 rates | 2009 rates plus RAR4* |
|------------|------------|-----------------------|
| 2007 usage | \$634,952 | \$405,266 |
| 2008 usage | \$634,915 | \$405,225 |

^{*} Regulatory Asset Recovery 4 (RAR4) rider will be in effect for 27 months, February 2009 until April 2011.

Question #32

Reference: i) Board Staff #23 a)

a) Please confirm that the results in part (ii) were derived by applying the weather correction factors in part (iii) to the actual loads as shown in part (i).

Response:

PDI confirms that the results in part (ii) were derived by applying the weather correction factors in part (iii) to the actual loads as shown in part (i).

b) Please provide a schedule setting out the actual customer count by class for the most recent month available.

The customer count data is provided below:

Customers and Connections by Class

| | February |
|---------------------------------|----------|
| | 2009 |
| Residential | 30,334 |
| GS<50 kW | 3,619 |
| GS>50 kW | 363 |
| Large User | 2 |
| USL | 10 |
| Sentinel Lighting (connections) | 439 |
| Street Lighting (connections) | 8,097 |
| Total Customer & Connections | 42,864 |

Question #33

Reference: i) VECC #15 a) and b)

a) The table provided in the response to 15 a) indicates that "the total labour costs charged by PDI's service provider" for 2008 were (or were forecasted at January 30, 2009 to be) \$6,786,224. Please confirm that these costs were or will be charged to PDI. If unable to so confirm, please explain.

Response:

The 2008 labour charge charged by PUSI to PDI in 2008 was \$6,494,177.

b) Please confirm that the 2008 Bridge Year labour costs of \$6,786,224 represent an increase of \$610,378 or 9.9% over the actual 2007 labour costs of \$6,175,846 and provide a rationale for such an increase.

Response:

PDI confirms that the 2008 Bridge Year labour costs represent an increase of 9.9% over the actual 2007 labour costs. The 9.9% increase is attributed to a 3% labour increase, increased benefit cost such as OMERS and Green Shield and an additional 4,200 hours allocated from PUSI to PDI for capital and operating activities as well as increased shared service costs.

The capital program was increased by approximately 3,500 hours as Management anticipated increased capital activity based upon estimates from the asset management report and increased economic activity carried over from 2007.

The Operating program labour requirement was increased by approximately 700 hours. These hours were allocated to overhead lines, storms, distribution stations and metering.

The increase is comprised of the following components:

- \$185,000, labour increase on \$6,175,846;
- \$61,000, increased benefits and progression increases;
- \$47,000, increased shared service costs; and
- \$317,000, increased labour hours.
- c) Asked to indicate how separate adjustments for inflation and increased labour costs were calculated and applied in deriving the 2008 and 2009 O&M costs, PDI stated (part b) that "3% inflation was used, as 80% of operating and maintenance expenses are labour-related. The current PUSI contract includes a 3% labour

EB-2008-0241 EB-2008-0242 EB-2008-0243 Peterborough Distribution Inc.

Responses to VECC Supplementary Interrogatories Filed: March 25, 2009 Page 12 of 19

increase." Please explain how this response is consistent with the 9.9% increase in labour costs charged by PDI's service provider.

Response:

See the response in b) above. As discussed, the number of operating and capital hours required from PUSI staff increased by 4,200 over 2007.

EB-2008-0241 EB-2008-0242 EB-2008-0243 Peterborough Distribution Inc.

Responses to VECC Supplementary Interrogatories Filed: March 25, 2009 Page 13 of 19

Question #34

Reference: i) VECC #15 a)

ii) Exhibit 4/Tab 2/Schedule 1

a) The response to VECC #15 a) indicates a total labour cost charged by PDI's service provider of \$6,952,581 for 2009. Exhibit 4/Tab 2/Schedule 1 indicates that, excluding amortization expenses and taxes other than income taxes, total OM&A expenses for 2009 are \$6,711,606, i.e., the 2009 total OM&A is less than the labour charges from PUSI. Please show how the information in the table provided in VECC #15 a) can be reconciled with the information provided in Exhibit 4/Tab 2/Schedule 1.

Response:

The numbers cannot be reconciled – the \$6,952,581 includes all labour charges from PUSI to PDI, including labour that PDI capitalized. Capitalized labour (in the amount of \$2,573,981) does not appear in the total OM&A figure of \$6,711,606. The \$6,711,606 represents PDI's operating expenses – those expenses include 3rd party costs, inventory and PUSI labour charges that have not been capitalized.

Peterborough Distribution Inc. Responses to VECC Supplementary Interrogatories

Filed: March 25, 2009 Page 14 of 19

Question #35

Reference: i) VECC #22 d) and e)

a) For each year of the period 2006-2009 inclusive, please show how the total costs allocated to PDI shown in part a) can be reconciled with the Shared Services Costs allocated to PDI in part e).

Response:

Please see the following table:

| | 2006 | 2007 | 2008 | 2009 |
|---------------------|-----------------|-----------------|-----------------|-----------------|
| PDI Labour | \$ 5,908,939 | \$ 6,151,722 | \$ 6,794,926 | \$ 6,955,552 |
| Vehicles | 420,440 | 430,890 | 376,350 | 401,350 |
| Bldg & Equip Rental | 673,891 | 841,582 | 813,377 | 732,407 |
| Revised VECC # 22 d | \$ 7,003,270 | \$ 7,424,194 | \$ 7,984,653 | \$ 8,089,309 |
| VECC # 22 e | \$ 7,003,270 | \$ 7,424,194 | \$ 7,869,653 | \$ 8,089,309 |
| Difference | \$ - | \$ - | \$ (115,000) | \$ |

In addition to revising the PDI labour amounts, the building and equipment rental amount reported in 2008 has been corrected. Please see Exhibit 4, Tab 2, Schedule 2, page 2 of 2. Account 5670 – Rent for 2008 = \$813,337. The amount reported as 2008 building rent in response to VECC #22 e) should have been \$628,377 rather than the \$513,377 shown in the response, a difference of \$115,000.

PDI labour has been adjusted in this table [see the line titled "revised VECC # 22 d)"] and the vehicle costs have been added to reconcile to VECC # 22 e).

Question #36

Reference: i) VECC #22 d)

ii) Exhibit 4/Tab 2/Schedule 4 pages 5 and 6

a) For each year 2006-2009 inclusive, please explain how the total charges from PUSI to PDI provided in the response to VECC #22 d) can be reconciled with the pre-filed information at Exhibit 4/Tab 2/Schedule 4 pages 5 and 6.

Response:

Please see the following table:

| | 2006 | 2007 | 2008 | 2009 |
|---|-----------------|-----------------|-----------------|-----------------|
| PDI Labour | \$ 5,908,939 | \$ 6,151,722 | \$ 6,794,926 | \$ 6,955,552 |
| Vehicles | 420,440 | 430,890 | 376,350 | 401,350 |
| Bldg & Equip Rental | 673,891 | 841,582 | 813,377 | 732,407 |
| Revised VECC # 22 d | \$ 7,003,270 | \$ 7,424,194 | \$ 7,984,653 | \$ 8,089,309 |
| | | | | |
| Exhibit 4, Tab 2, Schedule 4, pages 5 and 6 | | | | |
| Operating | 4,764,489 | 5,017,457 | 5,199,954 | 5,411,502 |
| Capital | 1,564,890 | 1,565,155 | 1,971,322 | 1,945,400 |
| Building & Equipment rental | 673,891 | 841,582 | 813,377 | 732,407 |
| Total | 7,003,270 | 7,424,194 | 7,984,653 | 8,089,309 |

The tables have been reconciled above and the building and equipment rent has been revised as discussed in VECC Question 35.

Question #37

Reference: i) VECC #17 b), Attachment C, 2007 Annual Report

ii) Exhibit 1/Tab 3/Schedule 5, Appendix A, 2006 Annual Report

a) Please indicate what happened to the collection agency, Premier Receivables Management Ltd., which the 2006 Report shows as being owned by PUSI.

Response:

Premier Receivables Management Ltd., ("PRML"), was dissolved in 2007.

b) Please provide the impacts, if any, of its divestment/dissolution on PDI and its ratepayers.

Response:

PRML was acquired in 2005 and dissolved in 2007. During those years PDI and its rate payers benefited by reduced shared service costs from PUSI as PRML shared in these costs. Post-2007, costs to PDI returned to pre-2005 activity levels.
