Dear Ms. Walli:

**Re: Union's Application for Designation of the Heritage Gas Storage Pool,
EB-2008-0405**

Dear Ms. Walli:

I am writing as counsel for Union Gas Limited (Union) to provide Union's submissions in support of its application EB-2008-0405.

Union submits that the evidence in this matter, including the pre-filed evidence of Union, the written answers to the Technical Conference Written Questions from Board Staff, the information presented by Union during the Technical Conference on March 31, 2009, and the three undertakings given by Union at that Technical Conference, amply demonstrates that all of the questions set out in the Issues List should be answered in the affirmative and that it would be in the public interest for the Board to grant the orders requested in Union's application.

The Ministry of Natural Resources (MNR) was represented at the Technical Conference. At the request of MNR, Union provided the following undertakings:

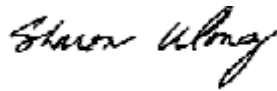

- 1) to update, before first injection, Union's operating procedures and emergency manuals to take into account Union's operations at the Heritage Gas Storage Pool and to provide notice to the MNR and to the Board once the update has been completed; and
- 2) to work with the MNR on the creation of a one or two page handout that could be provided to the public that provides information that would be useful to the public in case of an emergency, such as emergency contact telephone numbers.

Subject to Union complying with those undertakings, Union understands that MNR has no objections to the Board granting the requested orders. No other party has raised any concerns about the requested orders.

Union undertook to provide formal notice of the proceedings to the Ministry of Transportation (MTO). Union complied with this undertaking on April 1, 2009, by couriering a copy of Union's Application, the Board's Notice of Application and the Procedural Orders to the MTO's OPCC representative and also to the MTO representative who Union has been dealing with in respect of this project. A copy of the covering letter to MTO is enclosed.

Accordingly, Union requests that the Board grant the orders as applied for in Union's Application dated December 18, 2008.

Yours truly,

Sharon Wong

Attention: Mr. Doug Peeling

Dear Sir:

RE: Heritage Storage Pool

Union Gas Limited (Union) is proposing to develop a natural Gas Storage Pool in St. Clair Township north of Wallaceburg. A small portion of the proposed storage area will be under Highway 40 in Lot 6 Concession 15 of the former township of Sombra.

For your information I am enclosing a copy of Union's application to the Ontario Energy Board (OEB) and the notice of application and the procedural orders which were issued by the OEB. Unfortunately, the Ministry of Transportation was not provided with this material earlier as a result of an oversight. Union committed to provide the Ministry of Transportation with the notice of application at a technical conference convened by the OEB on March 31, 2009.

Mr. Bruce Elliott from ELS and Company (ELS) has been in contact with your London office regarding this project. A copy of his letter dated March 24th, 2009 is attached hereto. ELS have been retained by Union to obtain the necessary land rights for the proposed storage facility.

If you have any questions or concerns regarding the project please contact ELS or myself.

Sincerely,

William Wachsmuth

Dear Ina,
Re: Sombra Township, Lot 6 Concession 15

Further to our earlier correspondence, Union Gas Limited is proposing to create a Designated Storage Unit for the purposes of storing Natural Gas in the area of Highway 40, Sombra Township, Lot 6 Concession 15. In order to move ahead with our development program we must lease all of the lands or portions of lands within the boundary of the proposed unit. You have lands within that area.

The area of interest is quite small, 5 acres more or less in total, but we must lease the entire area and thus we must lease your parcel as well. This is an area under Highway 40 roadway and the right of way. I am enclosing a map of the area to indicate where the parcel is located. I am also enclosing copies of our proposed Petroleum and Natural Gas Lease and Grant and our proposed Gas Storage Lease Agreement. These are standard documents with standard terms.

The reason that we are asking you to sign a Petroleum and Natural Gas Lease and Grant and the Gas Storage Lease Agreement is to provide us with a standard document that the Energy Board will recognize as being similar or the same as the documents that everyone else signed in the area and at the same terms.

I trust that the enclosed is in order and meets with your approval. If there is anything that I can help you with please do not hesitate to call. I understand fully, as was explained, that there is a review process and an approval process and that the process moves at a steady pace. As always in a development of this nature time is of the essence and we require a reply of some nature from your office stating that you have received our materials and that the process has begun. If you could fax my office a statement of that nature it would be greatly appreciated.

Yours truly,
ELS and Company Inc.
