Dear Ms. Walli:

This is in response to your letter of May 8th/09. By this letter we both wish to object an oral hearing because of my (A.Ghosh) inability to attend for poor health (I went four times hip surgery). Specially if we need to travel long way for the same. I am sixty eight year old and with less help at home it would be extremely hard.

However we will gladly welcome the opportunity to do the written hearing part and /or any such type of communication.

Thank you for understanding.

Regards yours truly
