Attention; Board Secretary.

Re; File # -EB-2009-0111

ONTARIO ENERGY BOARD

I have always been a strong supporter in saving electricity, but with the unlawful installation of the "Smart-Meters" I did sent my objection to the Management of the building I live in. There was a times when the Tenants paid for their own use of electricity consumption, then came rent control and the electricity was included, but the rent increase was much higher than the cost of the electricity it worked in favour of the Land Lords.

Now the Land Lords would like to separate the electricity again for a big saving to the owners. I see the smart meters only as a scam, The meters have a positive effect on Single People that do not cook at home and People that can afford to eat out, The negatives are Families with Children, Seniors and the Infirm that are on life support at home-care because there is no room in Hospitals or Home-care, they are the once that will pay for this unnecessary scam.

Why do I call this a scam? Somebody came up with an idea do get rich quick is to save electricity through Smart metering , it takes very little investment, but has an instant return. You do not need a Power Plant. Power Lines or Warehouses, you only have to order the meters as you need them and install them into existing buildings, they pay for them selves once they are hooked up. In 6 months you go public, sell shares and collect you millions. That is what I call this a scam

The following are charges made for the months of Jan,14<sup>th</sup> to Feb,14<sup>th</sup>  
I am a Senior ( 85 ) and use a life support Oxygen Condenser, I should use it a minimum of 19 hours per day, I only use it when I work and at night. My rent credit thwart the hydro was \$ 36.00 per month.

My hydro charges for that month are as follow;

Distribution Usage Rate.....	\$ 7.09
Admiistration Fee.....	\$ 12.00
Regulated Charge.....	\$ 13.42
Energy Charge.....	\$ 28.15
Gst,.....	\$ 3.03
Total.....	\$63.69

The above are my thoughts, I wish the Board the very best in making Your decision.

Sincerely yours

Peter Thill
