Dear Ms. Walli:

**Re: Enbridge Gas Distribution Inc. ("Enbridge")
Storage Infill Drilling Application
Ontario Energy Board File No. EB-2007-0891/EB-2008-0387**

On June 2, 2009 the Ontario Energy Board issued the Decision with Reasons for the above noted proceeding. The Decision included a favourable report to the Ministry of Natural Resources ("MNR") recommending the approval of the application to drill well TCV#6 (Horz. #1) in the Coveny Pool subject to the conditions of approval set out in the Report.

Enbridge would like to inform the Board that after detailed geological mapping and reservoir simulation of the Coveny pool it was determined that the TCV#6H well would not add sufficient deliverability to warrant drilling at this time.

Enbridge currently plans to run 3-D seismic at Coveny in 2011 at which time we will update the geological mapping and the reservoir simulation to re-evaluate the justification of drilling the TCV#6H well and will apply to the Board and MNR for approval.

If you have any further questions, please contact the undersigned.

Yours truly,
