Dear Mr. Hossie:

**Re: Yellow Falls Power Limited Partnership
Application for Amendment to Schedule 1 of Electricity Generation Licence
Board File No.: EB-2009 0137**

On May 5, 2009, Yellow Falls Power LP ("Yellow Falls") filed an application to the Ontario Energy Board (the "Board") for an amendment to Schedule 1 of its electricity generation licence EG-2006-0191. On April 27, 2009, Yellow Falls applied to the Board for an order granting leave to construct transmission facilities connecting a 16 megawatt run-of-the river waterpower project located at Yellow Falls to the transmission system owned by Hydro One Networks Inc.

This letter is to inform you that your application for an amendment to Schedule 1 of your electricity generation licence is being held in abeyance and will be scheduled to coordinate with the leave to construct application. Accordingly, the Board's review of the licence amendment application is suspended until further notice.

Please direct any questions relating to the licence amendment application to George Dimitropoulos, Analyst, Licence Applications at (416) 544-5152 or e-mail, George.Dimitropoulos@oeb.gov.on.ca.

Yours truly,
