

Ontario Energy Board Staff - Interrogatory #1

Reference: Affidavit of Doug Wilson, paragraphs 34 and 36.

Affidavit of Melanie Paradis, Ex. A, p. 2.

Affidavit of Melanie Paradis, Ex. C, pp. 3, 11, 14, 15, and 17.

Preamble: At numerous places throughout the evidence filed by the MNO, there are references to the Métis' Aboriginal rights and traditional practices. There are also several references to transmission facilities, including the project that is the subject of Hydro One's current application before the Board (the "Project").

Questions:

1. What, if any, specific actual or potential adverse impacts to Métis' Aboriginal or treaty rights, or interests in land, does the MNO foresee arising from the Project itself (i.e. the subject of the leave to construct application currently before the Board)? Please specify the potential impacts resulting directly from the Project on hunting, fishing, trapping, gathering, or any other proven or asserted Aboriginal or treaty right.
