Conditions of Approval - Interim Monitoring Report**

---

In accordance with the Ontario Energy Board's Decision issued on March 28, 2008, the Conditions of Approval required Enbridge to file an interim monitoring report for the project 6 months after the in-service date. The final in-service date for the Tecumseh Storage Enhancement Project was February 6, 2009 and would require Enbridge to file the report by August 6, 2009.

Enbridge respectfully requests an extension for the interim monitoring report for the Tecumseh Storage Enhancement project to resolve resource scheduling issues.

Enbridge intends to file the complete interim monitoring report in the month of September.

Any future developments will be communicated to the Board and the OPCC members.

If you have any questions, please contact the undersigned.

Yours truly,
