

August 17, 2009

Ms. Kirsten Walli, Board Secretary
ONTARIO ENERGY BOARD
2300 Yonge Street, 27th Floor
Toronto ON M4P 1E4

Dear Ms. Walli:

Re: EB-2009-0096: Hydro One Networks Inc. 2010/2011 Distribution Rates Application.

We are counsel to Rogers Cable Communications Inc. ("Rogers") in respect of the captioned proceeding. Please accept this letter as Rogers' request for intervention herein.

Description of the Intervenor.

Rogers is an integrated cable and communications company that receives electricity for its cable signal amplification power supplies from distributors throughout Ontario, including Hydro One.

Impact of the Application on the Intervenor.

Rogers' interest in this application is primarily focused on rate treatment of Unmetered Scattered Load (USL) customers. Rogers conducted an active intervention in Hydro One's 2008 Distribution Rates Case (EB-2007-0681) in respect of this issue, and has intervened in a number of Board rate and policy proceedings in pursuit of proper cost allocation and rate design treatment for USL electricity distribution customers. The Hearing Panel in EB-2007-0681 deferred issues regarding rate treatment of USL customers to the then ongoing Rate Design policy initiative of the Board (EB-2007-0031).

By Notice to interested parties dated April 16, 2009 the Board indicated that completion of the ongoing Rate Design policy initiative is being deferred. Accordingly, Rogers concerns regarding rate treatment by Hydro One of USL customers remain unresolved. Rogers' therefore seeks to intervene in this proceeding primarily on the issue of rate treatment of USL customers.

Rogers may have other issues of interest to raise following full review of the pre-filed evidence herein.

Costs.

Rogers does not intend to seek costs in this proceeding.

Communications.

Rogers requests that all communications and materials in this proceeding be directed to the following contacts on its behalf:
