

**EB-2009-0123**

**IN THE MATTER OF** the *Ontario Energy Board Act*,  
1998, S.O. 1998, c. 15, Schedule B;

**AND IN THE MATTER OF** an application by Triacta  
Power Technologies Inc. to renew Smart Sub-  
Metering Licence ES-2007-0943.

By delegation, before: Theodore Antonopoulos

### **DECISION AND ORDER**

The Ontario Energy Board received an application to renew smart sub-metering licence ES-2007-0943 from Triacta Power Technologies Inc. on April 24, 2009. The Board has assigned the application file number EB-2009-0123. The application was deemed incomplete and additional information was requested. The additional information was received on August 4, 2009. A letter of direction and notice of application was issued on August 18, 2009.

The licence that is the subject of the renewal application was issued to the applicant on August 22, 2008 and remains in force until August 21, 2009. The licence provides that the term may be extended by the Board.

Because the current licence will expire prior to final determination of the renewal application, and because the applicant needs to be licensed to provide smart sub-metering and associated services in Ontario, the applicant has requested that the term of licence ES-2007-0943 be extended until the Board makes a final decision with respect to the renewal application.

Considering the time required to process an application in accordance with the Board's established practice and procedures, and considering the applicant's need for a licence

to continue providing smart sub-metering and associated services in Ontario, I find that it is in the public interest to make an order extending the term of licence ES-2007-0943 until such time as the renewal application is determined or November 11, 2009, whichever is earlier.

In the event that further information be required to be filed by the applicant in support of this application, I expect that the applicant will provide that information promptly and within the timeframe allotted by the Board.

**IT IS THEREFORE ORDERED THAT:**

The term of the smart sub-metering licence ES-2007-0943 is extended until the final determination of the renewal application or November 11, 2009 whichever is earlier.

**DATED** at Toronto, August 20, 2009

ONTARIO ENERGY BOARD
