

Undertaking J1.8

To provide new number for budget and meter installations and adjusted number for capital expenditures as a result of that.

The correct adjusted number for budget meter installation is \$50,000. This is based on the expected number and cost of 2009 General Service > 50 kW services. The adjusted number for capital expenditures as a result of that and the reduction in the Porcelain Insulator Replacement program is \$11,229,582 gross of contributed capital (see column entitled "Revised Budget" in the table included in the response to Undertaking J1.5).
