Attention: Ms. Kirsten Walli, Board Secretary

Dear Ms. Walli:

**Re: EB-2009-0242 – York Energy Centre LP – Electricity Generation License
Application – Response to Submission of Mr. Richard Johnson**

We write on behalf of York Energy Centre LP (“York”) in response to the above-captioned submission. As a preliminary matter, York takes exception to the negative descriptions of its conduct, that of Pristine Power Inc., and the York Energy Centre that Mr. Johnson provides.

In addition, while mindful of Mr. Johnson’s involvement in the process leading up to this application, the commentary that Mr. Johnson provides are obviously personal views relating to past processes and decisions made by other approval-granting authorities. It is not clear to York how Mr. Johnson’s comments pertain to the application before the Board and the relief that York seeks, or what relief Mr. Johnson’s submission seeks. The issue before the Board concerns whether York has met the requirements in the filing guidelines. York submits that its application is complete and straightforward, and a written hearing should proceed as scheduled.

Yours very truly,

for: Gordon M. Nettleton
