

Dear Susan Madams

SEP 02 2009

ONTARIO ENERGY BOARD

① This letter is in response to your terribly notice in the local paper. This is the most ridiculous actical I have ever read. Have you thought about seniors, widows, widowers. I for one am a widow living on \$1300 a month. If this takes place I will have to sell my home, my car & hope to hell the Government takes care of me. I am not even a senior yet (until Nov 20). I also have a disease called Polymyalgia Rheumatica & live on a perscription a month. The Government helps me pay for all these pills.

Enough about me now what about the people with or without children that live below the poverty line & live over

in Government assistant living. What about all the people unemployed. What is going to become of our next generation.

There is definitely no need for any of this rate hike. By the way how can the Okla. wages be tripled from one June to another June with just one person living in her house. ~~for~~ It goes from 6 kwat 2008 & 2009 - 30 kwat.

Believe me when I say I do not even have a light on after dark as I use candles because I definitely cannot afford 10 more on my hydro bill.

All this is about is, your top dogs want more million per year. all we want is million of people fund out

jobs.
I was in the hospital
now I that I am home
I can write this letter

I also realize that this
mean nothing to any
of you big shots

Sharon Bartof
