Dear Ms Walli:

**Re: EB-2009-0275**

We are counsel to the Consumers Council of Canada. By this letter we are asking that our client be granted intervenor status in this matter.

Our client represents the interests of residential consumers of natural gas in Ontario. The granting of the application would have an impact on the rates which those consumers pay for the delivery of natural gas.

Our client is a non-profit, public interest entity which has no funds of its own to support its intervention. Accordingly, our client will be seeking award of costs for its participation in this matter. Our client has participated in most, if not all, applications by Union Gas Limited for approval of its rates over the past many years, and in all of those applications has been awarded 100 percent of its reasonably-incurred costs.

Our client is unable, at this point, to take a position as to whether there should be oral or written hearing. Our client will not be able to take a position on that issue until it has had reviewed the evidence to be filed in support of the application.

Copies of all materials related to the application should be sent to the writer, and to Julie Girvan.

Yours truly,

**WeirFoulds LLP**
