Re: Consumers that will cease to be eligible for the RPP as of November 1st, 2009.

1. North Bay Hydro has informed all of our effected customers by written letter on two occasions. The first was with the original deadline of May 1st, 2009 and the second with the revised deadline of November 1st, 2009. In addition to the letters, each of the customers were contacted either by phone or in person, which is detailed in MUSH July 2009.
2. Samples of the contact letters and the MUSH July Details follow.

March 18, 2009

NB General Hospital - Accounts Payable

750 Scollard Street

North Bay, ON P1B 5A4

Dear Sir or Madam,

CHANGES TO ELECTRICITY COMMODITY PRICES EFFECTIVE MAY 1 2009

The purpose of this letter is to inform you about changes to the commodity portion of your electricity bill. These costs represent approximately 60% of your total electricity bill.

On May 1 2009, Ontario's public sector including municipalities, universities, schools, hospitals and other designated customers will move from paying Regulated Price Plan

(RPP) to a weighted average electricity price or an hourly electricity price. Those customers still on the Regulated Price Plan(RPP) will no longer be billed the RPP rate starting May 1 2009. This change applies to all accounts with consumption greater than 250,000 kilowatt hours (kwh) per year and demand greater than 50 kw. Accounts less than this threshold remain on RPP rates. Your current Electricity Charges under the Regulated Price Plan:

Fixed rate first 750 kwh	5.6 cents kwh on 30 days
Fixed rate remainder of kwh	6.5 cents kwh

It is most likely that most of your consumption is charged at the higher rate of 6.5 cents per kwh. Your new commodity charges are based on the type of meter currently installed on your premises

Interval Meter: Facilities with an interval meter will pay the hourly price for electricity. That means paying for electricity when it is used. This is a sample of the way the market performed over the last year.

Ave On Peak Hourly price (7am-11pm weekdays)	6.27 cents
Ave Off Peak Hourly price (11pm-7am & weekends)	3.82 cents

Non Interval Meter: Customers who do not have an interval meter will pay a weighted average of the hourly price based on consumption patterns of consumers in the area.

An example of recent North Bay Hydro Weighted Average Prices:

Nov 1-30 2008	5.49 cents kwh
Dec 1-31 2008	4.8 cents kwh
Jan 1-31 2009	5.57 cents kwh

Retail Contracts: Contracts are another way to purchase the electricity commodity. Contracts allow you to lock in your electricity costs for a term. If considering this as an option please be sure to understand the rates and conditions of the contract. Please compare rates carefully with other options noted above.

As you leave the RPP pool you will receive a credit on your bill.

Please also note with the new pricing options there will be a credit or charge applied known as the Global Adjustment. This charge or credit covers the difference in hourly pricing versus long term supply contracts entered into by the Ontario Power Authority for new and renewable generation.

Your following North Bay Hydro accounts will be affected:

138747-46842

For more information about the changes in electricity pricing contact Cindy Tennant 474-8100 ext. 310

Sincerely,

Cindy Tennant, Manager of Finance
North Bay Hydro Distribution Ltd.

Dear Sir or Madam,

**AMENDMENT TO CHANGES TO ELECTRICITY
COMMODITY PRICES**

**NEW EFFECTIVE DATE: NOVEMBER 1, 2009
ORIGINAL DATE: MAY 1, 2009**

The deadline for the mandatory exit of the MUSH sector and other designated institutional customers from the Regulated Price Plan (RPP) is being extended for six months to November 1, 2009.

The purpose of this letter is to inform you about changes to the commodity portion of your electricity bill. These costs represent approximately 60% of your total electricity bill.

On November 1, 2009, Ontario's public sector including municipalities, universities, schools, hospitals and other designated customers will move from paying Regulated Price Plan (RPP) to a weighted average electricity price or an hourly electricity price. Those customers still on the Regulated Price Plan(RPP) will no longer be billed the RPP rate starting November 1, 2009. This change applies to all accounts with consumption greater than 250,000 kilowatt hours (kwh) per year and demand greater than 50 kw. Accounts less than this threshold remain on RPP rates. Your current Electricity Charges under the Regulated Price Plan:

Fixed rate first 750 kwh
Fixed rate remainder of kwh

5.6 cents kwh on 30 days
6.5 cents kwh

It is most likely that most of your consumption is charged at the higher rate of 6.5 cents per kwh. Your new commodity charges are based on the type of meter currently installed on your premises.

Interval Meter: Facilities with an interval meter will pay the hourly price for electricity. That means paying for electricity when it is used. This is a sample of the way the market performed over the last year.

Ave On Peak Hourly price (7am-11pm weekdays)	6.27 cents
Ave Off Peak Hourly price (11pm-7am & weekends)	3.82 cents

Non Interval Meter: Customers who do not have an interval meter will pay a weighted average of the hourly price based on consumption patterns of consumers in the area.

An example of recent North Bay Hydro Weighted Average Prices:

November 1-30 2008	5.49 cents kwh
December 1-31 2008	4.8 cents kwh
January 1-31 2009	5.57 cents kwh

Retail Contracts: Contracts are another way to purchase the electricity commodity. Contracts allow you to lock in your electricity costs for a term. If considering this as an option please be sure to understand the rates and conditions of the contract. Please compare rates carefully with other options noted above.

As you leave the RPP pool you will receive a credit on your bill.

Please also note with the new pricing options there will be a credit or charge applied known as the Global Adjustment. This charge or credit covers the difference in hourly pricing versus long term supply contracts entered into by the Ontario Power Authority for new and renewable generation.

Your following North Bay Hydro accounts will be affected:

138747-46842

If you have any questions concerning this amendment, please contact Cheryl Beauchamp 474-8100 ext. 274. I will be contacting you in the near future to help you prepare and understand your options and alternatives on exiting RPP.

Sincerely,

Cheryl Beauchamp, Senior Billing Control Clerk
North Bay Hydro Distribution Ltd.
