

Moving to Hourly Prices

On November 1, 2009*, Ontario's public sector including municipalities, universities, schools, hospitals and other designated customers will move from paying the Regulated Price Plan (RPP) to a market-based, or hourly, price for electricity.

Many public sector customers have already moved to market prices to save money.

* Extended from May 1, 2009

Timmins and District Hospital made the switch to hourly pricing and saved money on its electricity bill

Timmins and District Hospital was paying for virtually all of its consumption at the higher-tiered RPP rate. In April 2006, it moved off the RPP and since that time has saved over \$230,000 on its bill.

The Independent Electricity System Operator (IESO) is a not-for-profit entity that manages the province's power system so that Ontarians receive power when and where they need it. Ontario's IESO balances demand for electricity against available supply through the wholesale market and directs the flow of electricity across the transmission system.
