**Re: Consultation on Cost of Capital – Final Written Comments  
Board File No.: EB-2009-0084**

On June 18, 2009, the Ontario Energy Board (the “Board”) issued a letter announcing a review of its policy regarding the cost of capital. The Board set an issues list to form the basis of its review. This issues list was posted on the Board’s web site on July 30, 2009. Interested stakeholders were invited to file written comments identifying their views and positions on the listed issues by September 8, 2009.

The purpose of these consultations is to obtain further information in three key areas:

- the potential need to adjust the established cost of capital methodology, based on the ERP approach, to adapt to changes in financial market and economic conditions;
- to determine the reasonableness of the results based on a formulaic approach for setting the cost of capital; and
- to guide the Board's discretion to adjust those result, if appropriate.

The Board is holding a stakeholder conference to provide a forum for discussion on the issues identified by the Board. The first two days of the conference were September 21, and 22, 2009. The conference will continue on October 6, 2009.

### Final Written Comments

Subsequent to the stakeholder conference, and in light of the presentations made by participants and discussions at that conference, participants are invited to provide final written comments to the Board. While participants may prepare their written comments as they determine appropriate, it is not necessary that participants reiterate positions already expressed in earlier materials. **Written comments must be filed with Board Secretary by October 26, 2009, as set out below.** Commensurate with the amount of material that has been presented for review and analysis, the Board has determined that cost awards will be available to eligible participants and their experts for up to 40 hours each to

prepare their final written comments. To clarify, an eligible participant that has retained an expert is eligible for up to 80 hours to prepare their final written comments, and an eligible participant that has not retained an expert is eligible for up to 40 hours to prepare their final written comments. **Information on cost awards in relation to consultations to date is contained in Attachment A.**

## **Next Steps**

As indicated in June when this review was announced, the Board anticipates that any changes to the policy made as a result of this review will apply to the setting of rates for the 2010 rate year.

Therefore, following receipt of final written comments, the Board will review all of the materials, including the stakeholder conference transcripts and all of the written comments in making its determination. The Board aims to issue its report in December.

The Board will use the process set out in section 12 of its *Practice Direction on Cost Awards* to implement the payment of the cost awards. Therefore, the Board will act as a clearing house for all payments of cost awards in this process.

For more information on the cost awards process, please see the Board's *Practice Direction on Cost Awards* and the October 27, 2005 letter regarding the rationale for the Board acting as a clearing house for the cost award payments. These documents can be found on the Board's website at
