04/2/09

I would like to add my name to the growing list of Hydro customers who would like to complain about the constant increases in our electric bills. Mine has more than doubled in the last few years to the point where I am paying \$500.00 for 2 months. I am a pensioner and this is simply not acceptable.

I find these constant increases unacceptable. File no. EB-2009-0096

I know that I am not alone in my complaints, there are many others like myself who simply cannot afford all these raises so that a few can make over a million dollars a year.

Thank you for your attention

Helen Ley
