Dear Ms. Walli:

Re: Hydro One Networks Inc. / Milton Hydro Distribution Inc. Joint Application to connect new General Service customer

Hydro One Networks Inc. ("Hydro One") and Milton Hydro Distribution Inc. ("Milton Hydro") are writing to inform the Ontario Energy Board ("the Board") of the need to connect a new general service customer within Hydro One's service territory to Milton Hydro's distribution system via a long term load transfer ("LTLT") arrangement.

Hydro One's customer located at 8572 Highway 7, lot 1, concession E6, in Eramosa Township requires one new 200 amp service. The nearest Hydro One facilities are 230 metres from the customer's property. Since Milton Hydro has existing facilities adjacent to this customer, and there are existing LTLT customers west of this customer on the same property, the preferred option is to have Milton Hydro connect the customer at a minimal cost. To meet the imminent requirements of the customer, Hydro One and Milton Hydro are proceeding to put in place the necessary equipment to make the connection.

Hydro One and Milton Hydro continue to proceed with work to address LTLTs consistent with the Board's Amendments to the Distribution System Code, Board File No. - "EB-2009-0095 - Amendments to the Distribution System Code, Re: Timing for Elimination of Load Transfers" issued June 10, 2009.

Should you have any questions on this application, please contact Yoon Kim at (416) 345-5228 or via email at Yoon.Kim@HydroOne.com.

Sincerely,

A handwritten signature in black ink, appearing to read "Greg Van Dusen".
