Dear Sirs:

I am an eighty-five year old senior citizen living in my own home. It gets more difficult each year as municipal taxes increase, the price of food goes up, also heating oil, and now Hydro.

Hydro just got an increase & now they want two more increases in 2010 & 2013. We already have the highest priced Hydro in Canada.

You want business & industry to come in to Ontario, but they

wont come because hydro is so expensive

The government wants seniors to stay in their own homes, but it gets more difficult all the time.

I would hope you wont allow these increases.

Yours truly
(Mrs.) Gwen Perkins
