Interrogatory # 7

Ref: Exhibit A, Tab 1, pages 3 & 4 & Working Papers, Schedule 15

a) Why has Union not included the proposed provincial corporate tax income rate reduction from 14% to 12% effective July 1, 2010 in its calculation of the Calculation of Tax Rate Change Impacts? In particular, why has Union used a 32% forecast income tax rate for 2010, as shown on line 7 of Exhibit 15 in the Working Papers?

b) Please update Schedule 15 in the Working Papers to reflect a corporate tax rate of 31% in 2010, reflecting a federal tax rate of 18% and an average provincial tax rate of 13%.
