ONTARIO ENERGY BD

Board Members,

I feel I must voice my opinion as to the proposed increase asked by Hydrex One EB-2009-0096. This company shows a total lack of scruples in asking for an increase at this time of economic stress. Please deny the application. The following abuses exist where the company can curb expenses - everyone is cutting back and so should they.

Abuse #1. Out of control salaries of company managers

#2. refrigerator round-up - I disposed of my own without expecting fellow citizens to pay.

#3. useless "Win Big Summer Sweepstakes"

#4. Win one of 20 prizes (11/08)

#5. computer give away contests

#6. Rinks for kids

#7. Glossy paper used for their propaganda flyers.

At present the extras on the bill
are approximately 60-65% of the
kw. used. Cutting down is not
working when everything else is going
up.

Have some guts - say No!
